Points of Order: Points of order upheld, or upheld in part: 454, 642, 813, 943, 1362, 1416, 1564, 1565, 1566, 1908, 2311, 2315, 3080, 3274, 3276, 3279, 3294, 3383, 3507, 3703.

Points or order disallowed: 136, 294, 308, 438, 439, 440, 442, 515, 639, 1160, 1170, 1208, 1688, 3080, 3315, 3496, 3703, 3710, 3793.

Points of order not involved: 440, 517, 522, 1342, 1401, 1540, 1732, 1805, 1900, 2311, 2468, 2471, 2596, 2831, 3229, 3233, 3364, 3366, 3384.

Decisions on points of order deferred: 3302, 3304.

A member must confine himself to his point of order, 86.

Presentation: 76.

Procedure: A number of bills may be declared urgent in globo, 1170.

A personal interest in a question disqualifies members from voting, but it must be a direct pecuniary interest and separately belonging to the persons whose votes are questioned, and not one held in common with other persons, or one relating to a matter of State policy, 1218.

When making a second reading speech a member must speak to the bill or debate matters that were mentioned in the Minister's speech; he may direct attention to the

SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY (continued):

principles of the bill, quoting from it occasionally, but he may not read the bill clause by clause, 3118.

A member must address the Chair, 3353, 3360; and may not ask a question of the Minister in the course of contributing to the debate, 3353.

A member must speak to the motion before the House, 1836, 2315, 2839, 3274, 3276, 3279, 3281, 3356, 3507; and remarks must be related to those of the mover of the motion, 2839, 3275.

A member who claims a bill to be deficient may make that point during debate, 3304.

In a division, members were requested to leave the cross benches vacant until it became apparent on which side there were the most members, 1370, 1392, 2202, 3094.

The placing of questions on the Questions and Answers paper does not necessarily inhibit debate on the matter raised, and equally it is not in order for a member to raise a matter answered on that paper, 3383.

With the consent of the Chair the third reading may proceed forthwith, 3315.

Standing Order 122A provides that the business under discussion shall be interrupted at 4.15 p.m., but an amendment having been negatived, the motion should be put irrespective of the time, 2876.

A member who had interposed himself between the Chair and a member addressing the Chair was reminded of the standing orders, 2311.

A member was asked whether he was leading for the Opposition in a debate, 3086.

A member was asked whether he was satisfied that information he was relating was correct, 294.

A member was asked whether he was leading for the Opposition in a debate, 3086.

A member was asked would he accept responsibility for the truth of remarks referred to, 3495.

Questions Without Notice: Members on both sides of the House will get equality of opportunity to ask questions without notice, 86.

A question should be brief and should press for action or seek information, 2957; and some explanatory material may be included, 148, 3230; but it should not be prolix, 3231, 3301.
Assembly, Legislative: Rulings, Observations and Opinions of Chair (continued):

Speaker, Mr (The Hon. Lawrence Borthwick Kelly (continued)):

A question should not be offensive, argumentative, or reflect on members, 295; or be based upon rumours, 2187.

With fifty-one backbenchers on the Government side and thirty members on the Opposition side, it would be unfair to Government members to allow them only an alternate opportunity to ask questions, 307; consequently the call shall be given in the ratio of five Government members to three Opposition members, 308.

Question time should not be used in an attempt to mount a personal attack upon a person outside Parliament, 422.

More members would be able to ask questions if there were fewer interjections, 933.

A member wishing to ask a question should seek the call, 934, 2953, 3224.

A Minister's answer would be brief if members did not interject, 2463.

The Chair has no control over the manner in which Ministers answer questions, 2468, 2475.

It is unfair to all members if the time allowed for the asking of questions without notice is eroded by lengthy answers, 2469.

Members should not endeavour to assist a Minister to answer a question, 3224.

In 1971 Standing Order 78 was amended to provide that an answer shall be relevant to the question, 2474, 2475; and that in answering any question a member shall not debate the matter, 2475.

A question was ruled out of order, 3493, 3494, 3497; because of its prolixity, 3301.

A member who asked a lengthy question was invited to ask it in a briefer form, 941.

A member was directed to conclude his question, 2957.

A member who asked a question was asked to listen to the answer in silence, 3072.

A Minister asked for a question to be repeated so that he might be precise in his answer and a member was requested to put the question again, 518.

A Minister was informed that his answer was verging on a ministerial statement, 2707.

Relevance: Remarks must be relevant to the question before the Chair, 152, 1416, 1566, 1803.

Assembly, Legislative: Rulings, Observations and Opinions of Chair (continued):

Speaker, Mr (The Hon. Lawrence Borthwick Kelly (continued)):

A member was ruled out of order for persisting in debate on a matter not relevant to the question before the Chair, 1566.

Special Adjournment: A member objecting to the adjournment and wishing to debate a particular matter must show it to be of vital importance to the State, 1563.

A special adjournment motion must not be treated as though it were an adjournment motion, 1562, 1564, 1566.

Debate should be related to remarks made by the mover of the motion though it has been the practice for members to refer to matters on the business paper or other matters, but they may not dwell on such matters, 2839; may not present argument for or against such matter, 2840; and may not make a personal attack upon another member, 2842.

A member may speak to salient matters that the House should take into account, 3793.

Sub judice Rule: The statement of the Attorney-General that the subject matter of a question without notice was not sub judice was accepted, 3224.

Urgency: The House will decide whether a matter is urgent, 1160.

A member moving urgency must give reasons why the business of the House should be set aside to deal with the subject as a matter of urgency, 2598, 3294; though he may make some preliminary remarks provided they are linked to the question of urgency, 3294.

It is not the practice of the House to circulate copies of urgency motions, 3703.

A member must confine his contribution to matters raised by the mover of the motion, 1803.

The Government having agreed to urgency, the time of the House will be saved if members speak to the substantive motion, 1593.
