Assembly, Legislative: Rulings, Observations and Opinions of the Chair:

ACTING-SPEAKERS AND TEMPORARY CHAIRMEN OF COMMITTEES:

CHAIRMEN OF COMMITTEES:

J. D. BOOTH, Mr: Appointment, 85.
M. L. HUNTER, Mr: Appointment, 85.
J. H. MURRAY, Mr: Appointment, 85.
A. A. TINK, Mr: Appointment, 85.
R. C. A. WOTTON, Mr: Appointment, 85.

J. D. BOOTH, Mr:

AS ACTING-SPEAKER:

Address in Reply: In accordance with Mr Speaker's rulings it is competent for a member to raise matters which were not in the Governor's Speech but which in the member's view should have been in the Speech. Matters relating to what the Federal Government is doing are not relevant, 900.

Amendments: (See "Bills").

Bills: When a bill has been referred to as deriving from a committee report leniency has often been given to discuss other matters in the report that may have been included in the bill, 2729.

At Committee stage a member should confine his remarks to the specifics of amendments and not range over debate that would have occurred at the second reading stage, 1240.

Debate: (See "Relevance").

Governor's Speech: (See "Address in Reply").

Interjections, Interruptions and Disorder: Members wishing to converse should do so outside the Chamber, 2200.
Assembly, Legislative: Rulings, Observations and Opinions of the Chair (continued):

ACTING-SPEAKER (J. D. BOOTH, MR) (continued):

Points of Order: Not upheld (Relevance), 2730. Upheld in part (Relevance), 2732.

Private Members' Statements: During the currency of the Address-in Reply debate: If the anticipation rule were not applied a member could raise matters he had previously raised in Private Members' Statements. A member's statement ruled not to be urgent or sufficiently local to the member's electorate, 910.

Relevance: It was not appropriate for a member to discuss in length the appointment of the Auditor-General when that matter was not dealt with in the bill before the House, 2729, 2730, 2731.

A Minister's reference in his second reading speech to a report of the Public Accounts Committee had been brief and was not a basis for a member developing a series of arguments about other matters mentioned in the report or any other report not within the scope of the bill, 2730, 2731.

At Committee stage a member should confine his remarks to the specifics of amendments and not range over debate that would have occurred at the second reading stage, 1240.

AS TEMPORARY CHAIRMAN:

Chair: If a member reflected on the Chair she would be named, 2918.

Procedure: A member is not entitled to the call once S.O.175B comes into effect, 2918.

A. A. TINK, MR:

AS ACTING-SPEAKER:

Address in Reply: Members may not present detailed factual information about particular matters in Governor's Speech, 1041.

As Mr Speaker had ruled that it was not in order to raise matters of detail relating to individuals as opposed to broader policy issues, a member was directed to deal with more general policy matters, 438.

Member in order so long as his remarks were directed to the context of citizenship matters, to the way members are elected, or the way the State education system may be affected through English as a second language, 265.

Amendments: Amendment ruled in order in accordance with ruling of Deputy-Speaker Cahill that it is in order to move that a motion be amended by leaving out all words after the words "That this House" and substituting other words, 2540.

Bills: A Minister's second reading speech is designed to explain the contents of a bill in further detail and defines the parameters of what is relevant in debate on a bill; it is in order for a Minister to raise issues that are broadly relevant to a bill on the clear understanding that those issues then become relevant in subsequent debate, 1712.

Governor's Speech: (See "Address in Reply").

Interjections, Interruptions and Disorder: House directed to come to order, 2555.

Member has the right to be heard in silence, 2550.
Assembly, Legislative: Rulings, Observations and Opinions of the Chair (continued):

Acting-Speaker (J. D. Booth, Mr) (continued):

Member who had the call had the right to respond to interjections, 3094.

Offensive and Objectionable Remarks, Imputations and Aspersions: A Minister's comments had not fallen within S.O.151, 2757.

Expression not required to be withdrawn: "... considerable vitriol expressed by the honourable member for Port Stephens ...", 2757.

A member who used the word "moron" was asked to use more temperate language, 2542.

Points of Order: If a member wished to take a point of order he should not do so by interjecting, 265.

Member directed to state his point of order or resume his seat, 2757. Member directed to confine his remarks to his point of order, 2757.

Not Upheld:

Misinformation, 2537.
Misleading statement, 3093.
Relevance, 269.

Procedure: Attack on a Minister: There is a fine line between freedom of speech and the requirements for a substantive motion; member warned he was close to being required to move a substantive motion, 1037.

Quorum: Calling of quorum is within the discretion of the Chair. A quorum not having been called since the dinner recess the Chair ruled it was in order to be called for, 1714.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (continued):

Acting-Speaker (J. D. Booth, Mr) (continued):

Relevance: Member directed to return to the ambit of bill, 1476, 1477.

R. C. A. Wotton, Mr:

As Acting-Speaker:

Address in Reply: Member is not precluded from making general comments about matters connected with his electorate and the State, 1063.

Debate should be confined to matters contained in Governor's Speech and to omissions from the Speech provided those omissions relate to subjects that could be properly included, 587.

Chair: Members should listen in silence when Chair is speaking, 1462.

Governor's Speech: (See "Address in Reply").

Interjections, Interruptions and Disorder: Member directed to cease interjecting, 588, 1471.

Offensive and Objectionable Remarks, Imputations and Aspersions: Expressions not required to be withdrawn: "... the honourable member ... has a history of unsuccessful betting", 1061.

Expression withdrawn voluntarily: "Minister had made false statement", 1470.

Points of Order:

Upheld:

Misleading statement, 1470.
Relevance, 587.
Sub judice, 747.
Assembly, Legislative: Rulings, Observations and Opinions of the Chair (continued):

ACTING-SPEAKER (WOTTON, R. C. A., Mr) (continued):

Relevance: A member's remarks had been basically in order but she was asked to return to the Governor's Speech, 588.

DEPUTY-SPEAKER AND CHAIRMAN OF COMMITTEES (Miss WENDY SUSAN MACHIN):

AS CHAIRMAN OF COMMITTEES:

Amendments: When dealing with Legislative Council amendments consideration is limited to whether they are acceptable or not acceptable or whether they should be further amended. Measures may be debated to aid both Houses in arriving at a compromise if there is disagreement to a bill, for instance, amending other portions of a bill that have a direct bearing upon the subject-matter and treatment of any amendment. It was in order for a Minister to move three fore-shadowed consequential amendments, 1722.

Bills: (See "Amendments").

Members Asked to Resume Seat: Mr Fahey, 3114; Mr Harrison, 3113, 3114; Mr Whelan, 3114.

Points of Order: A member could not take a point of order on a matter that the Chair had ruled upon, 3114.

Spurious, 3113. Member taking a point of order under the guise of a point of privilege, 3114.

Not Upheld:

Minister not speaking to Legislative Council amendments, 3110.

Privilege: Member taking a point of order under the guise of a point of privilege, 3114, 3115.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (continued):

CHAIRMAN OF COMMITTEES (MISS WENDY SUSAN MACHIN) (continued):

Procedure: Standing orders make it clear that if a motion is moved during the proceedings of the Committee the Chairman shall leave the Chair, report progress, and seek leave to sit again, 3115.

Member's attention drawn to S.O. 329, "A motion that the Chairman do now leave the Chair" will, if carried, supersede the proceedings of a Committee". Member's remarks should be directed to the motion, 3112. The Chairman stated she had been in error in allowing debate and corrected her earlier ruling, 3113, 3114, 3115.

Relevance: Minister was in order in speaking to Legislative Council amendments, 3110.

AS DEPUTY-SPEAKER:

Address in Reply: The Chair referred to Mr Speaker's ruling that members cannot dwell on administrative matters in the Address-in-Reply debate, but there is scope to encompass general policy matters. Member was directed to confine her remarks to a more general nature, 1206, 1207, 1208.

Bills: Debate is more narrowly confined in speaking to an amending bill, 1741.

Chair: Member should address remarks through the Chair, 458, 2550, 2551.

A member cannot debate a ruling of the Chair; and a member was flouting an earlier ruling, 1207, 1208.

Debate: (See also "Bills"). The truthfulness of a member's remarks is for others to determine, 2949.

Documents: Members may refer to copious notes but must not read their speeches, 922, 940, 1204, 1206.
DEPUTY-SPEAKER (MISS WENDY SUSAN MACHIN) (continued):

Governor's Speech: (See "Address in Reply").

Interjections, Interruptions and Disorder: A member cannot participate in debate by interjection, 1879.

Members wishing to converse should leave the Chamber, 1245, 1871, 2200.

Members directed to cease interjecting, 458, 1487, 1560, 2550.

Member warned about language he used in interjecting, 1244.

Points of Order: The Chair was of the view that a member was not introducing anything new in a further point of order and that the member was canvassing a ruling of the Chair, 2947.

Not Upheld: False allegations, 2949.

Private Members' Statements: A member must relate his remarks to issues affecting his electorate. An attack on a Minister or his portfolio must be made by way of a substantive motion, 2374.

Procedure: Member seeking the call, 1203.

The standing orders and precedents of the House provide that criticism of a Minister and a Minister's portfolio must be by way of substantive motion. A member was attempting to refer to matters on which the Chair had ruled he could no longer refer, 2373, 2374.

Relevance: Minister's comments ruled to be relevant, 2985.

Member asked to come to the substance of a bill, 1741. A member's remarks did not fall within the ambit of a bill, 2779.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (continued):

DEPUTY-SPEAKER (MISS WENDY SUSAN MACHIN) (continued):

Member directed to return to the bill, 2951.

An amending bill was narrow in its terms of reference and if a member could demonstrate that his remarks were relevant he would be permitted to continue, 2949.

Sub Judice: It is a contravention of the sub judice rule to discuss matters that are before a court; but it was within the leave of a bill before the House to discuss sentences that may be imposed by a court; member asked to not refer to specific cases, 2946. A member directed not to discuss matters he knows are before a court, 2952.

SPEAKER, Mr (THE HON. KEVIN RICHARD ROZZOLI):

Address in Reply: Presentation, 1689.

Debate in reply to Governor's Speech should deal with matters of broad policy contained in the Speech. The Governor's Speech does not deal with matters of day-to-day administration. If a member wished to discuss administration policy of a government department, criticisms must be couched within those guidelines. It would be contrary to precedent to allow a member to continue to attack a Minister's conduct. A member may discuss dispute settling procedures that apply as a matter of policy within a government department but must not speak in detail about particular aspects of the administration. The Chair was applying the parameters set down by previous Speakers, 107, 108, 109, 110, 111.

Although the Address in Reply is broad ranging a member could not be stopped from concentrating on one item of policy. The only restriction on the member was not to make an attack on a Minister and
not to go into specific matters of administration, 110, 111. The Chair must uphold precedents and rulings of the House, 111.

Amendments: The Chair will not accept an amendment unless a copy is received, 3052.

Chair: Member was flouting ruling of the Chair, 434, 3054; had reflected on the Chair, 1670; must not canvass a ruling of the Chair, 1506.

Member must address the Chair, 726.

It is important that the Chair hear anything that reflects on the Chair, 1009.

It is gross discourtesy to interrupt the Speaker while on his feet, 1183; and a member who interrupted would be on three calls to order, 1672.

The Chair had not heard an interjection by a member allegedly directing a vulgarity at Mr Speaker, 1964.

Debate: Standing orders do not prevent a member in reply from reflecting on what another member has said, 2697.

As the Leader of the Opposition had cast aspersions on members who might become Ministers after the elections, it was within the ambit of the Premier's reply to also cast aspersions, 2892.

Distinguished Visitors: (See also "Visitors"). Delegation from Jiangsu Friendship Mission, People's Republic of China, 2894.

Privacy of members' papers and documents (Premier's file), 3053. An issue before the House was the security of papers and whether the matter should be referred to the Standing Orders and Procedure Committee, 3056.
Assembly, Legislative: Rulings, Observations and Opinions of the Chair (continued):

SPEAKER MR (THE HON. K. R. ROZZOLI) (continued):

Governor’s Speech: (See also “Address in Reply”). Incorporation in Votes and Proceedings, 86.

Interjections, Interruptions and Disorder: A practice had developed of applauding farewell speeches. Previously such applause had been regarded as disorderly conduct. The Chair would not extend an indulgence beyond those genuine occasions when members were making farewell speeches; applause in any other circumstance will be considered disorderly conduct, 3058.

Members should be heard in silence, 205, 206, 207, 538, 1011, 1421, 1672, 1815, 2219, 2898, 3064, 3075. Questions and answers should be heard in silence, 79, 703, 705, 711, 712, 869, 1424, 1426, 1510, 1515, 2139, 2327, 2329, 2335, 2699, 2700.

The Chair appreciates a certain amount of good humour but it is impossible to get the maximum value from Question Time if there are interjections and responses to interjections, 2325. The maximum number of questions and answers would be obtained if members did not interject, 538, 1679, 2700. It is in the interests of all that members be orderly at Question Time, 537, 2502. Interjections prolong answers to questions, 388, 1182, 1191, 1423, 1961. Constant interjections erode Question Time, 870. Question Time should proceed in an orderly fashion, 1183.

Members conversing would be called to order even though they may not come within the ambit of disorderly conduct, 2691, 2694.

Members should not interject during a point of order, 1669.

If Opposition members wished to debate matters raised in a Minister’s answer they

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (continued):

SPEAKER, MR (THE HON. K. R. ROZZOLI) (continued):

had ample opportunity to do so in the Address-in-Reply debate, 380; and House directed to come to order to enable Premier to complete his answer, 381.

Childish interjections should be deplored by all members, 383.

The Chair respected the tradition that a Minister answering a question has the right to answer an interjection. However the Chair was concerned at the growing practice of interchange between a Minister and a member interjecting, 1513.

Members cannot contribute to debate by interjection, 538, 1421, 1508, 1513.

Interjections had prevented the Chair from deliberating on a point of order, 538.

Unruly behaviour, 538. Reprehensible conduct, 874. Disruptive conduct: members had endeavoured to make a farce of parliamentary proceedings, 1673. There had been an orchestrated attempt to disrupt business and draw the proceedings of the House into disrepute, 2701. It is difficult for debates to proceed when members’ conduct is not orderly and the Chair would not hesitate to take action against members who were obviously working to an orchestrated pattern of disruption, 3055.

Members were asked to conduct themselves in an orderly manner as students participating in the Schools in Parliament program were in the public gallery, 2690. Members had set a bad example to schoolchildren in the public gallery, 2887.
Debate cannot proceed properly if members continually interject, 1679.

Members directed to temper their deplorable behaviour and observe the traditions of the Parliament so as to allow proper and free debate, 2900.

Hansard staff and people in public gallery are entitled to hear what is said, 875. Members of the public have no right to participate in the proceedings and have a responsibility to conduct themselves in an appropriate fashion, 1673.

A member asked Mr Speaker whether he was being called to order for speaking to the Leader of the Opposition and was informed he was called to order for interjecting. Though generally considerable tolerance is extended to members who interject there are times when tolerance cannot be extended, 1013.

Every member has a right to hear a question, 1420.

Members wishing to converse should do so outside the Chamber, 103, 704, 713, 876, 1187, 1196, 2140, 2322, 2500, 3064. It was unacceptable that members conduct conversations all round the Chamber, 1962. It is grossly disorderly to converse across the bar of the House, 2910.

Member directed to cease interjecting, 105, 1264, 1432, 1513.

Members deemed to be on three calls, 546, 1014, 1192; member reminded she was on three calls, 2517. Members on three calls warned if they interjected again action would be taken, 1015. Member warned he would be removed if he continued to interject, 2138.

Premier directed not to respond to interjections, 1671, 2697, 2702.

Member should state his point of order and not respond to interjections, 2892.

The conduct of a member was outside the standing orders, 2696.

Minister should address a question and not answer interjections, 78, 377, 2513. A member had deliberately attempted to provoke a Minister into responding outside the parameters of an answer and the Chair would not allow that practice to gain currency, 1680, 1683.

Member Removed: Mr Whelan, 1680.

In accordance with the precedents of the House it is pertinent that a member tender an apology to the Chair either through the Serjeant-at-Arms or a member of the member's party. It is not the Speaker's role to take action other than that necessary to maintain discipline and the orderly conduct of proceedings. The Chair had little option other than to accept an apology and allow a member to come back into the House. If members' wished the conduct of the House to be orderly they must respect the Chair and the rulings and orders of the House. Members warned that in future Mr Speaker would not accept apologies if he believed such apologies were merely a pretext for obtaining re-admission to the House and flouting the discipline of the Chair, 1683.

Members asked to Resume Seat: Mr A. S. Aquilina, 2696, Mr Carr, 2891, Mr Knight, 2696.
SPEAKER MR (THE HON. K. R. ROZZOLI) (continued):

Motions: (See "Suspension of Standing Orders").

Offensive and Objectionable Remarks, Imputations and Aspersions:

Expressions required to be withdrawn: "You fibber. You are a liar", 3065; "The Opposition is on an organised campaign of disorder", 2697. A member who used the word "boothed" was directed to moderate his language, 1199.

The Chair had not heard an interjection that the Deputy Leader of the Opposition asked to be withdrawn, 3053.

Points of Order:

Dubious, 2900; spurious, 2694, 2893; not acceptable, 1424. Member knew no point of order was involved, 1815.

Member cannot debate point of order, 2512, 2695, 2893.

Should be heard in silence, 538.

The Chair had already ruled on a point of order, 2695. The Chair having ruled on a matter a member could not take a further point of order on that matter, 1506. In taking a point of order a member had ignored an earlier ruling of the Chair, 1673. A point of order does not provide a forum for a member to debate a matter before the House, 1674.

Point of order cannot be taken when there is no matter before the Chair, 1672.

Member directed to come to his point of order, 74, 2695; and had debated it at length, which could be a waste of Question Time, 75. Premier was straying from point of order, 1009. Deputy Leader of Opposition was straying from point of order, 1013.

The Chair was not willing to hear another point of order on the admissibility of a question without notice, 379.

Not Upheld:

Address-in-Reply debate, 714.
Leader of the Opposition: Flouting Mr Speaker's ruling, 2889.
Not debating suspension motion, 2691.
Member had directed vulgarity at Mr Speaker, 1964.
Member not debating suspension motion, 3071, 3072.
Member reading selectively, 538.
Minister giving answer to question asked previously, 2512.
Minister wasting time, 1182.
Ministerial statement and not answer to question, 1511.
Motion waste of time, 2887.
Motions spurious, 3065.
Premier's answer, length, 1424.
Question should be ruled out of order, 1192.
Question similar to motion House had debated, 2699.
Relevance, 2300.

Upheld:

Member reading speech, 112, 1199.
Noise in Chamber, 69.
Premier's file, privacy, 3053.
Relevance, 99, 100, 101, 2697.

Upheld in Part:

Attack upon a Minister and government department, 107, 108, 109, 110.
Session 1991

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (continued):

Speaker, Mr (The Hon. K. R. Rozzoli) (continued):

Government members being unruly, 2697.
Suspension of standing orders motion, relevance, 3065.

Privilege: Privilege in regard to member's possessions and papers (Premier's file), 3051, 3053, 3056.

No matter of privilege involved because a member was dissatisfied with an answer to a question, 390. Mr Speaker must hear a matter of privilege before ascertaining whether it comes within the ambit of privilege; anything touching the nature of answers to questions, whether on notice or without notice, are not matters of privilege. The Speaker has no jurisdiction over the content or manner in which a Minister chooses to answer questions. The quality of an answer does not come within the scope of a matter of privilege, 391. The Chair was certain that a member would know what matters come within a matter of privilege. The Chair had no intention of furthering what was a trivial exercise, 391.

No point of privilege in regard to the number of a question on the Questions and Answers paper; the numbering of questions is an administrative procedure, 714.

Any matter of privilege, particularly one that has proceeded to the stage of a motion, is of grave concern, 3051.

Procedure: It is the Premier's right in any suspension motion to have first election of reply, 1672, 1673.

The Chair would not accept amendment unless a copy was received, 3052.

Words may be expunged from the record with the leave of the House and there is no capacity to debate the matter, 77.
Mr Speaker has no jurisdiction over the content or manner in which a Minister chooses to answer questions, 391. Mr Speaker has little control over the factual content of answers; the main requirement is that they be relevant, 1189. A Minister could answer a question in the way he sees fit, 1195.

The Chair respected the tradition that a Minister when answering a question has the right to answer an interjection. However, the Chair was concerned at the growing practice of interchange between a Minister and a member interjecting, 1513.

There is no finite definition about the length of answers. The Chair had made efforts to encourage the maximum number of questions during Question Time. The Premier had been answering a question for 14 minutes, 75. The Chair was concerned about the length of a Minister's answer and the considerable minute detail he was giving; the Minister was starting to debate the issue and was asked to draw his answer to a conclusion as quickly as possible, 868. A Minister had been answering a question for some time, 1188; and was asked to conclude his answer as quickly as possible, 1188, 1189. The Chair had often expressed concern at the length of some ministerial answers, 1189.

Once a question on the Questions and Answers paper has been answered the same question cannot be asked during the same session. A question had been asked during a new session and therefore was ruled in order. The question related directly to a matter that happened in the past few days and seemed to raise different issues from those that might have been raised in a question with notice, 82. There was a certain overlapping in a question without notice and a question on the Questions and Answers paper. Minister directed to answer specifically the matters raised in question without notice, 378; the Minister was not answering question on Questions and Answers paper, 379.

Relevance: A member's speech was not outside the parameters of the Address-in-Reply debate, 110, 111.

The subject of a debate was whether in principle the privacy of documents had been invaded and such matter should be regarded as disorderly conduct; what may have been in the Premier's file and misappropriated was completely irrelevant, 3053, 3054.

Member given three warnings to address the subject-matter of Address-in-Reply debate, 434.

A member was within the ambit of a suspension motion by adverting to the gravity of matters as he saw them, 3072.

Members directed to address remarks to suspension of standing orders motion, 99, 100, 101, 1009, 1010, 2691, 2692, 2693, 2887, 2898, 3063, 3065. Premier ruled to be well within ambit of replying to suspension of standing orders motion, 2695. Premier directed to come back to the substance of his reply, 2697.

A member was reminded that he had been present in the House when the Chair ruled on members' dwelling on administrative detail outside the ambit of the Address-in-Reply debate, 433. The member was flouting the Chair's ruling and asked to address matters of policy.
Assembly, Legislative: Rulings, Observations and Opinions of the Chair (continued):

SPENCER, MR (THE HON. K. R. ROZZOLI) (continued):

The member could not give administrative detail of particular cases, 434; and the member cannot introduce minutiae by subterfuge, 435.

A bill referred to the machinery of carrying out audits and a member was restricted in regard to detail he raised, 2743.

If the Deputy Leader of the Opposition had listened to the Leader of the Opposition he would know that what the Premier had said arose from remarks made by the Leader of the Opposition, 2892. Deputy Leader of the Opposition directed to address his remarks to question before the Chair, 3053.

As a suspension motion had included matters such as the mismanagement by a Minister of his portfolio, the Leader of the Opposition has the right, in broad terms, to direct himself to matters that may be the subject of a later debate, 1671.

Suspension of Standing Orders: (See also "Relevance"). The practice when speaking to motions for suspension is that members may refer to copious notes or even read speeches, 2899.

Members directed to address remarks to suspension of standing orders motion, 99, 100, 101, 1009, 1010, 2691, 2692, 2693, 2887, 2898, 3063, 3065.

As a suspension motion had included matters such as the mismanagement by a Minister of his portfolio, the Leader of the Opposition has the right, in broad terms, to direct himself to matters that may be the subject of a later debate, 1671.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (continued):

SPENDER, MR (THE HON. K. R. ROZZOLI) (continued):

It is the Premier’s right in any suspension motion to have first election of reply, 1672, 1673. There was no necessity for the Premier to indicate whether suspension of standing orders would be granted, 2698.

The Premier has a responsibility to reply to matters addressed by Leader of the Opposition in speaking to motion for suspension, 1674.

It is extremely difficult for the Chair to decide what may be substantive material and material that should be allowed to be referred to in suspension motion, and member asked to contain her remarks to why standing orders should be suspended, 2898.

It is difficult for the Chair to determine the fine line between substantive material that may be discussed and material that pertains to the motion for suspension of standing orders; and Deputy Leader of the Opposition had started to speak to substantive material, 3065.

Members should desist from debating substantive material, 1009, 1010.

A member should not refer to matters that are part of the substantive motion, 1670, 1671.

Leader of the Opposition was reminded that there are limitations on what he may refer to in moving suspension of standing orders, 2691, 2692, 2693.

Council, Legislative: Rulings, Observations and Opinions of the Chair.

DEPUTY-PRESIDENTS AND TEMPORARY CHAIRMEN OF COMMITTEES:

THE HON. Dr MARLENE GOLDSMITH:  
Appointment, 25.

THE HON. DELCIA KITE:  
Appointment, 25.

THE HON. J. C. J. MATTHEWS:  
Appointment, 25.

THE HON. K. W. REED:  
Appointment, 25.

THE HON. M. F. WILLIS:  
Appointment, 25.
THE HON. DR MARLENE GOLDSMITH:

Chair: Members should not trifle with a ruling of the Chair, 3004.

AS DEPUTY-PRESIDENT:

Debate: Member not able to speak twice in debate, 3010.

Dissent: Dissent from Chair’s ruling, 3004, 3008, 3029.

Documents: Standing Orders are quite specific that lengthy public documents should not be quoted in Hansard because of the expense to the public purse. A member was in order in requesting that documents be tabled in support of his argument, 3003, 3008.

Offensive and Objectionable Remarks, Imputations and Aspersions: A member had not acted dishonourably but was warned to be careful in what he said, 1309.

Expression directed to be withdrawn: "... she has been politically induced", 1308, 1309.

Relevance: Member directed not to canvass matters in report of Police Tribunal, 2478.

Member should address bill before the House and not a bill introduced previously, 2227.

THE HON. M. F. WILLIS:

AS DEPUTY-PRESIDENT:

Interjections, Interruptions and Disorder: A member was not able to speak to the bill because of interjections, 1370.

DEPUTY-PRESIDENT AND CHAIRMAN OF COMMITTEES (THE HON. SIR ADRIAN SOLOMONS):

AS DEPUTY-PRESIDENT:

Distinguished Visitors: Members of various Parliaments in the Union of Soviet Socialist Republics, 354.

Interjections, Interruptions and Disorder: Audible conversation prevented the Chair from hearing a member’s speech, 2847.

Member entitled to be heard in silence, 997.

Offensive and Objectionable Remarks, Imputations and Aspersions: A member had not acted dishonourably but was warned to be careful in what he said, 1309.

Expression directed to be withdrawn: "... she has been politically induced", 1308, 1309.

Points of Order: Not upheld (Relevance), 1099, 2846.

Procedure: Member’s attention directed to S.O.76; member had no right to quote from previous day’s Hansard, 1310.

Relevance: A member’s comments had already been put on the record by another member, 2859.

The Chair was having difficulty following a member’s arguments, 504, 505.

The Chair accepted that a member had been drawn into answering interjections but the standing orders must be followed in regard to relevance; member directed to return to question before the Chair, 352.
Remarks must be relevant to the question before the Chair, 333, 1362.

Tedious Repetition: Member asked to comply with S.O.85, 1380.

Amendments. Order of amendments, 1384, 2092, 2236, 2863, 2864, 3042. Chair had inadvertently omitted amendment when giving order of amendments to be debated. 2254.

Amendments ruled to be consequential to amendment negatived, 1391.

Amendment ruled out of order under S.O.175; amendment not within the scope of the long title of bill, 1395; Chair was bound by precedents, 1396.

Amendments moved in globo, 2233, 2236, 2280.

Further amendments of Legislative Assembly proposed in a part of a bill in which Legislative Council had already expressed its concurrence. The Chair was of the opinion, having regard to nature of the amendments, that it was competent for the Committee to consider the amendments and it was not a derogation of the powers of the Chamber, provided any agreement is not drawn into a precedent, 2279.

Bills: (See "Amendments").

Chair: It is not the function of the Chair to construe an Act of Parliament or to decide points of law or give opinions, 1409.

Debate: The Deputy Leader of the Opposition having formally moved an amendment and ceded the carriage of the debate to another member also had the right to participate in the debate, 2236.

Divisions: Casting vote with noes, 1385, 1390, 1402, 2274. Casting vote with ayes, 2276.

Offensive and Objectionable Remarks, Imputations and Aspersions: Implication that a former Premier was less than honest not ordered to be withdrawn, 1400.

Point of Order: Not upheld (Offensive Words), 1400.

Procedure: The Deputy Leader of the Opposition having formally moved an amendment and ceded the carriage of the debate to another member also had the right to participate in the debate, 2236.

Relevance: Minister asked what amendment he was addressing, 2272. Member not addressing amendment, 2276.

PRESIDENT (THE HON. JOHN RICHARD JOHNSON):

Address in Reply: Presentation, 1745.

The tradition of the House is that in the Address-in-Reply debate members are entitled to great latitude but should keep within the ambit of the Governor's Speech and only draw on matters outside that ambit to support their contributions. However, a member was not prevented from being as wide-ranging in his comments as other members had been, 957.

A Minister's answer to a question was not anticipating debate on the Address in Reply, 487.
Amendments: It is within the standing orders to move an amendment to a motion and it is for the House to determine whether to accept the amendment, 1144.

Council, Legislative: Photograph of Legislative Council, 28.

Lovelock, Ms Lynn Carole, Appointment as Deputy Clerk, 20.

Debate: Anticipation of debate of matters on notice paper, 1650. Member cannot anticipate debate, 1101, 1002, 1140.

Minister was not anticipating debate on Address in Reply, 487.

Distinguished Visitors: (See also "Visitors"). His Excellency the Irish Ambassador and Mr Brian Slowey, Chairman of Directors of Guinness Ireland and Aer Lingus, 1091.

His Excellency Dr Laszlo Pordany, Ambassador of the Republic of Hungary, 1901.

Mr Zhi Zhong, Vice-Chairman of the Standing Committee of the Jiangsu Provincial People’s Congress and members of the Jiangsu Friendship Mission, 2792.

Hon. Sir Eric Willis, a former Premier of New South Wales, 2840.

Division: Division called off and then proceeded with, 798, 799.

Documents: A member was creating a dangerous precedent by reading from a document signed by another member, 63.

Governor’s Speech: (See also "Address in Reply"). Copy of Speech reported in minutes of the Legislative Council, 27.
PRESIDENT (THE HON. JOHN RICHARD JOHNSON) (continued):

any member and all imputations of improper motives and all personal reflections upon members are highly disorderly. The practice of the House, based on that of the House of Commons, is that a charge against a member's character or conduct must be made only by way of substantive motion that admits the distinct vote of the House, 1287.

Expressions withdrawn voluntarily: "... the likes of him ...", 688; "half truths", 1097; "If the honourable member could not remember the words that she spoke only a few moments before, then she was irresponsible, 1097; "... were it Jim Cameron, he would adopt a different position ..., 1124; "The honourable member would be quite happy to perform any medical procedure", 1943.

Expressions not required to be withdrawn: "... so-called leader of the Call to Australia group", 999; "The Australian Labor Party has attempted to slur the reputation of a member", 1286; "It is irresponsible of the honourable member ..., 1596.

Chair ruled against a member's point of order that "... the Minister is abusing me and saying untrue things about me".

Remarks made by way of interjection and in points of order had been unbecoming of members, 1283.

The word "sleazy" and other remarks had not been addressed to a particular person but were made by way of general comment, 991, 992.

In the political arena one must be a little thickskinned, 999.

Parliament: Smoke-free workplace, 2638.

Points of Order: Member should restrict his remarks to the point of order, 63, 955.

Member was being one-eyed in point of order about noise in the Chamber, 1919.

Members referred to S.O.71 (Member speaking more than once to the question before the House), 64.

The Chair adjudicates on points of order, not members, 1096.

The Chair cannot rule on a point of order if it cannot be heard, 1275, 1283.

Not Upheld:

Upheld:

Offensive words, 1287, 2997. Relevance, 1353, 1376, 1773.

Upheld in Part:

Anticipation of debate, 804. Member must address the Chair, 1150, 1157. Members continually interjecting, 2083. Relevance, 1776.
Council, Legislative: Rulings, Observations and Opinions of the Chair (continued):

PRESIDENT (THE HON. JOHN RICHARD JOHNSON) (continued):

Procedure: Member cannot anticipate debate of a bill yet to be dealt with, 1101, 1102, 1140.

When a point of order is taken it is the Chair who is being addressed, 1283.

Questions Without Notice: Question ruled not to be a supplementary question, 41. Supplementary question ruled in order, 2629.

Ruled out of order: as being outside the competence of the Minister to answer off-the-cuff, 310; question had already been asked, 1115; question more appropriate for Questions and Answers paper, 310, 2061, 2634; already on Questions and Answers paper, 2462.

The Chair cannot direct a Minister how to answer a question, 635, 1919.

Relevance: Member directed to confine his remarks to motion, 1151, 1152.

Member directed to speak to bill, 1352, 1353, 1362, 1379, 1773, 1937, 2228, 2997.

Minister asked to confine his remarks to his portfolio and what is likely to happen in New South Wales and not in another State, 2239.

Member was entitled to read the explanatory notes of a bill, 1938.

A member's speech had been to merely read a bill, 2301.

Visitors: (See also "Distinguished Visitors") Students participating in Law Week's School in Parliament, 2624.
