REGULATIONS FOR THE GUIDANCE OF JUDGES.

1. Awards shall be based upon written reports attested by the signatures of their authors.

2. Reports and awards shall be based upon inherent and comparative merit. The elements of merit shall be held to include considerations relating to originality, invention, discovery, utility, quality, skill, workmanship, fitness for the purposes intended, adaptation to public wants, economy, and cost.

3. To each group of classes a competent number of Judges have been assigned by the Commission of the Sydney International Exhibition.

4. The Judges assigned to each group of classes may choose from among themselves a chairman, and it is desirable they should keep records of their proceedings. Reports recommending awards shall be made, stating the ground of the proposed award, and such reports when adopted by a majority of the Judges in such group shall be signed by the Chairman in confirmation thereof.

5. The Judges shall determine among themselves their mode of procedure. It is hoped that the Judges will set forth the characteristics of exhibits, the elements of their merits, and, as far as practicable, the degree of merit. This precision is desired in order that the report may not only fully furnish the justification of the award, but be its most valuable part. Should it so happen that a majority of the Judges in any group cannot agree on a common report that fact must be reported to the Committee of Judging and Awards.

6. The reports of the Judges recommending awards must be returned to the Committee on Judging and Awards, to be transmitted by it to the Sydney International Exhibition Commission.

7. Awards will be finally decreed by the Sydney International Exhibition Commission.

8. Vacancies in the corps of Judges will be filled by the authority which made the appointment.

9. Neither an exhibitor nor his agent can be a judge in the class of his exhibits or in a cognate class.

10. The Commission will decree awards to governments, corporations, &c., and will appoint Judges of Collective Exhibits.

11. The Commission will appoint a Committee of Appeals to entertain all protests, appeals, and communications from exhibitors claiming that injustice has been done them in any matter relating to the examination of their products, and reports of Judges for awards.

12. The forms, notices, &c., required by these regulations, will be supplied by the Sydney International Exhibition Commission.

Additional Regulations for the Judges, approved of by the Sydney International Exhibition Commission, 9th Jan., 1880.

That the Judges be requested to classify all exhibits distinctly worthy of commendation into four classes.

1st class.—To contain all exhibits of the first degree of merit of its kind.

2nd class.—To contain all exhibits of the second degree of merit of its kind.

3rd class.—To contain all exhibits of the third degree of merit of its kind.

4th class.—To contain all exhibits of the fourth degree of merit of its kind.

That exhibits having no especial merit are not to be classified at all.

DEPARTMENT IV.—ART.

GROUP.—*Sculpture.*

Classes 400—405.

WE have carefully examined all Exhibits in this Class submitted to us, and have considered the European and non-European works separately.

EUROPEAN.

We have not considered that we were called upon to classify *seriatim* these works, many of which issue from the studios of artists of established reputation; we have, therefore, confined ourselves to the selection of Exhibits in each branch of the Class which we consider deserving of the first place, adding a few remarks on the collection generally.

Louis, Noel H., France ...	“ Rebecca ” (marble) ...	1st award (special)
Doublemard, A. D., France	“ Education of Bacchus ” (bronze)	1st award (special)
Birch, C. B., Great Britain	“ Retaliation ” (bronze) ...	1st award (special)
Joy, A. Bruce, Great Britain	{ “ First Flight ” (terra- cotta) “ Provost of Oriel ” (plas- ter) medallion,	} 1st award

Among the remaining exhibits in Marble, we would draw attention to :—

Vinçotte, Th., Belgium ...	“ The Captive ”
Aizelin, E., France ...	“ Une Merveilleuse ”
Sanzel, F., France ...	“ The Soap Bubbles ”
Fontana, G., Great Britain	{ “ Cupid Captured by Venus.” “ The Prisoner of Love ” “ La Sonnambula ”
Stevenson, D. W., Great Britain	“ Nymph at the Stream ”
Calvi, Pietro, Italy ...	“ Arianna Abbandonata ”

With respect to the Bronzes, we would speak of the whole group exhibited by France as deserving the highest attention. Forming a collection of which few, if any, equal specimens have previously reached this Colony, it appears almost invidious to select any for special remark, but we consider the following as deserving high commendation :—

- No. 185. Bartholdi, F. A.—“Genius in the Grasp of Misery.”
 „ 191. Delaplanche, E.—“Boy on Moving Tortoise.”
 „ 201. Ringel, D.—“A Flute Player.”
 „ 206. Vauréal, H. de.—“The Little Gleaner.”

The single specimen exhibited by Germany, No. 424, Miller, Ferd. von—“Carib Indian”—is also deserving of high commendation; and we must also draw attention to Belgium, No. 5, Laumans, Jean A.—“Exercise”; and to Great Britain, Nos. 34 and 35, Woolner, T., R.A.—“Alfred Tennyson,” and “Charles Dickens.”

Terra Cotta Modelling.—We also draw special attention to the four Statuettes by the Belgian Artist, Polydore Comein, entitled, “Bird for the Cat,” “Summer,” “Winter,” and “Little Mother;” and to the larger works by the Belgian Artist, C. Weiner, “Mutual Love,” and by the English Artist, A. Bruce Joy, “The Fairy Tale.”

In Plaster, the medallions by A. Bruce Joy, English Artist, from which we singled one for “1st award,” should be specially noticed; also, a design for a fountain, exhibited by A. Castner and Co., Germany, and placed in the grounds near the west entrance to the main building.

NON-EUROPEAN.

In this Class, Ceylon, Japan, Queensland, South Australia, and the United States, afford no exhibits. New Zealand and Tasmania exhibit, in the former case, a Marble, and in the latter, a Plaster bust of Aborigines of the respective colonies, which though highly interesting in an ethnological point of view, cannot be classed as works of art.

In the New Zealand Court there is also a carving in Oamaru stone, of “Birds and Foliage,” by L. Godfrey, deserving high commendation.

New South Wales exhibits six Marble Busts, by A. Simonetti. These works rank beyond any other Colonial Exhibits, and bear favourable comparison with the few works in portraiture modelling in the European Courts. We should select as deserving first place, “Bust of the late Commodore Goodenough, R.N.” Four Plaster Busts, by the same artist, are deserving of similar commendation; first place, being given to Bust of His Honor Judge Faucett. Honorable mention is also made of an original composition by the same artist, entitled “The Venus of the South,” and of a Bronze Medallion, by Mons. Henri, entitled—“The Empire of the South.”

Victoria exhibits no works in this class which call for any special notice.

Class 401.

SPECIAL RECOMMENDATION.

JAPAN.—The only exhibits brought under our special notice were two small carvings in Ivory, and one in (supposed) Boxwood. We consider, however, that it is within our functions to express our opinion of the unrivalled excellence in the moulding and sculpture of natural objects, and particularly of animal life, shown throughout the exhibits in this Court. For cast and chiselled work in bronze, carving in wood and Ivory, and modelling in Plastic materials, we recommend that the highest distinction of the first degree be awarded. We are unable to specify by name the artists of greatest merit, and, therefore, recommend the award in favour of the Exhibition as a whole.

GROUP.—*Painting.*

Class 406.—Paintings in Oil on Canvas, Panels, &c.

As in Classes 400 to 405, we have dealt separately with European and Non-European Exhibits, considering that justice would not be done to the latter, if brought to the same standard of classification as the former.

EUROPEAN.

In dealing with these exhibits—571 in number—we have also considered it advisable to avoid extended classification, and have confined ourselves to the selection of exhibits, in each class, which we judge to be deserving of the highest awards in each branch of such class, calling attention to others, and making a few remarks on the collection generally

We have not considered loan works as coming into competition.

From the foregoing statement it will be seen that nearly one-fifth of the whole collection of Oil Paintings has been selected for Special Commendation; but it may be here recorded that more than double the number of works were submitted for that distinction in the separate returns furnished by six Judges, which—at conference—were thus adjusted.

In a collection of such numerical extent, appealing to so many diverse tastes, it has been difficult to refrain from drawing attention to a large number of details of special interest and merit; these have not been omitted from any lack of appreciation of them on our part, but rather with a view to keeping our report within more reasonable limits.

As the Oil Paintings in the Art Gallery have been perhaps the most generally attractive feature of the International Exhibition, and form a collective exhibit of high educational value, we venture to suggest to the Commission that the services of the several representatives of BELGIUM, FRANCE, GERMANY, and GREAT BRITAIN, who have contributed so largely to such results, be recognized in a special manner, and that the highest distinction at the disposal of the Commission be awarded to them.

[N.B.—The intention of this recommendation is that such distinction should be "official," not "personal," to remain as a record of our Exhibition in the "Bureau d'Etat des Beaux-Arts" in France, in the corresponding Departments of Belgium and Germany, and in the Colonial Office at London.]

The Austrian Collection having been made under different circumstances, and being the result of private enterprise, we would further recommend that the prizes awarded in this Court be conferred on the understanding that they be transmitted to the Artists, and not to the Exhibitor; and that, at the same time, the services of Mr. L. T. Neumann, in bringing together so valuable an exhibit, be also recognised by a distinctive award of high class.

Class 407.

Water Colour Pictures, Aquarelles, Miniatures.

EUROPEAN.

The collection of Water Colour Pictures is confined to the British and French Courts—numbering 116 in the former, and 8 in the latter—

FRANCE.

No. 10. "The Earth," exhibited by the National Manufactory of "The Gobelins." Nos. 11, 12, 13, 14—"Four Leaves of a Screen," exhibited by the National Manufactory of "Beauvois."

We consider a report on these exhibits as coming under our province, although they are not directly referable to any of the Nine Classes of Works of Art submitted to us.

Recognizing that no award of ours could add to the world-wide reputations of the distinctively National Manufactories of the "Gobelins" and "Beauvois," we would express our warmest appreciation of the courtesy and thoughtfulness which influenced the French Government to grant an inspection of such grand specimens of the Tapestry Work of France to thousands of our citizens, who could not otherwise have expected to have known it but by name.

Class 406.

Paintings in Oil, on Canvas, Panels, etc.

NON-EUROPEAN.

We have paid close attention to the various exhibits scattered about in the different Courts of the Garden Palace, and in the N.W.

Court of the Art Gallery, about 150 in number, but are constrained to express the opinion that with the exception of the works by

COLLINGRIDGE, A., New South Wales,
 RICHMOND, J. C., New Zealand,
 FIGUENIT, W. C., Tasmania,
 WEBER, P., United States,
 VON GUERARD, E., Victoria,
 WHITEHEAD, I., Victoria,

hereafter distinctly mentioned, the collection is far below the standard which might have been expected; and some of the Exhibitors have contributed, on former occasions, to the Intercolonial Exhibitions in Sydney, superior examples of their work.

Landscape.

TASMANIA.

Extra First. Piquenit, W. C. No. 63. "South Esk River, and Ben Lomond."

First. Weber, P. No. 360. "Grand Cross, Grand Manon Island, Canada."

VICTORIA.

First. Whitehead, Isaac. No. 337B. "Milford, N.Z."

We consider it unnecessary to direct attention to more than the few other works enumerated below.

NEW ZEALAND.

Gibb, J. No. 626. "Godley Heads, Lyttelton."

Neville, L. No. 635. "Lake Wanaka, N.Z."

TASMANIA.

 Nelson, J. M. No. 313. "Valley of the Goulburn."
 Reilly, Henry. No. 327. "The Murray at Corowa."

TASMANIA.

Although non-competitive, we draw particular attention to the large oil painting, by Dowling, kindly contributed by the Mechanics' Institute, Launceston—"Aborigines of Tasmania." This work, apart from its artistic merit, possesses the special interest—rendering it, perhaps, unique—of portraying from life, a group of the latest survivors of several tribes of a race which has since become entirely extinct.

Class 407.

Water Colour Pictures, Aquarelles, Miniatures.

NON-EUROPEAN.

The remarks prefatory to the collection of Oil Paintings—Non-European—must also, to a great extent, be applied to the general collection in this class.
