- (1) How many motorists/policy holders would not receive a refund under the compulsory third party (CTP) insurance refund scheme?
- (2) How many motorists/policy holders would receive a refund under the CTP insurance refund scheme of between:
 - (a) \$0.01 and \$25.00;
 - (b) \$25.01 and \$50.00;
 - (c) \$50.01-\$75.00;
 - (d) \$75.01 and \$100.00;
 - (e) \$100.01 and above?
- (3) For each of the bands listed in (2) , please indicate the percentage of drivers in the following regions:
 - (a) Metropolitan;
 - (b) Outer Metropolitan;
 - (c) Newcastle;
 - (d) Wollongong;
 - (e) Country New South Wales?
- (4) Did businesses have to pay an administration fee to receive a CTP refund?
- (5) Were businesses automatically refunded?
 - (a) If so, why did ordinary motorists/policy holders have to apply for a refund?

Answer—

(1), (2) and (3) Approximately 3.5 million vehicle owners in New South Wales are entitled to a compulsory third party (CTP) refund. Refunds are generally between \$10 and \$120, depending on how close to 1 December 2017 the vehicle owner renewed their CTP premium. Average refund amounts vary between the five geographical zones. Indicative refund amounts, based on region and month of renewal, are available on the State Insurance Regulatory Authority website.

(4) Yes, business customers paid an administration fee to receive their CTP refund.

(5) No.

*7959 NEW TRAINS IN 2018—Ms Julia Finn asked the Minister for Transport and Infrastructure—

- (1) Considering the Government has ordered an additional 24 new eight-car suburban trains due from late 2018, how many of the trains will be scheduled on the:
 - (a) T2 Inner West line;
 - (b) T5 Cumberland line?
- (2) Will the new trains be running from late 2018?
- (3) When will all trains be air-conditioned on the:
 - (a) T2 Inner West line;
 - (b) T5 Cumberland line?

Answer—

I am advised

- (1) The new trains will be scheduled to operate on a number of lines including the T2 Inner West & Leppington Line. As the Member would no doubt be aware, all timetabled services on the T5 Cumberland Line are already serviced by air-conditioned trains.
- (2) This information is available on Transport for NSW's website.
- (3) The Government was faced with unprecedented growth in patronage across the Sydney Trains network and was forced to make a tough decision. We could either continue with the existing number of services which were not meeting customers' needs or temporarily put the S-sets back on the network to provide additional services. As the Member is aware, the government is replacing these with 24 new Waratah-style trains which will start rolling onto the tracks from late 2018. I remind the Member that when Labor was in government 72 per cent of the Sydney Trains network was air- Today 97 per cent of the network is air-conditioned.

*7961 DEMOUNTABLE CLASSROOMS AT SCHOOLS IN THE ENTRANCE ELECTORATE—Mr David Mehan asked the Minister for Education—

 - (l) The Entrance Public School;
 - (m) Tumbi Umbi High School;
 - (n) Tuggerah Lakes Senior Campus;
 - (o) Glenvale Special School North Entrance;
 - (p) Bateau Bay Public School?

Answer—

The Department of Education uses demountable buildings to manage changing enrolment patterns; provide accommodation to meet emergency needs arising from incidents such as fires, storms or flooding; and provide temporary accommodation needs as a result of capital works and maintenance projects.

The use of demountables allows the department to be highly responsive to changing needs in schools across the State. All demountable classrooms are air-conditioned and receive regular maintenance.

The department constantly monitors the use of demountables. Where a long-term need for additional school accommodation is established and funding is available, this is provided by expanding existing schools and/or building new schools as necessary.

*7963 SOUTH COAST LINE COMPLAINTS—Mr Ryan Park asked the Minister for Transport and Infrastructure—

LEGISLATIVE ASSEMBLY QUESTIONS AND ANSWERS
Wednesday 16 May 2018

(4) What was the total cost of installing additional disabled parking at Unanderra station?

Answer—

I am advised:

In 2009, the then Minister for Transport David Campbell announced an upgrade of Unanderra Station. Regrettably, and in typical fashion of the previous Labor Government, planning was rushed and ill-conceived.

Construction works at Unanderra began in May 2010 and were subsequently suspended in September 2010 due to significant conflicts between proposed works and in-ground services, which required additional concept design work and halt to the work in October 2010.

In August 2012, approval was given to remediate Unanderra Station platform and conduct maintenance work on the overbridge stair treads. Improvements to Unanderra Station included installation of lighting and CCTV, remediation of the platform and replacement of stair treads. All works were completed in March 2013.

What are the Government's policies for the storage and use of recycled glass in New South Wales?

LEGISLATIVE ASSEMBLY QUESTIONS AND ANSWERS
Wednesday 16 May 2018

The Government is currently auditing buildings in New South Wales to identify if they have cladding which may pose a safety risk to the building's occupants. That audit is being conducted by the cladding taskforce, comprised of officials from across relevant New South Wales Government Departments. The taskforce has:

- Conducted a data audit of records from approximately 180,000 building projects to identify buildings that may have cladding.
- Asked local councils to provide the taskforce with a list of buildings that may have cladding within their local government area.
- The Department of Planning has been reviewing its records for buildings in respect of which it was the consent authority to identify any that may have cladding.
- Engaged in a public advertising campaign, asking the public to inform Fair Trading of any concerns they may have regarding cladding on specific buildings.

NSW Fire & Rescue has been inspecting buildings that are identified as possibly having cladding. In that process, it has identified additional buildings that also require assessment. In the first instance, Fire & Rescue NSW has been assessing buildings to see if the building has cladding in a quantity or configuration that may give rise to a fire safety risk. As at March 2018, in total, Fire & Rescue NSW had assessed over 1,500 sites.

If a building is assessed to have cladding in that quantity or configuration, the Commissioner of Fire & Rescue NSW has requested the local council (where the council is the consent authority) to assess the building's safety, having regard to the cladding. Local council assessments are needed to determine if the cladding on those buildings is combustible, whether it is present in a quantity or configuration that poses a fire risk, considering all other aspects of the building's fire safety systems, and what steps are needed to ameliorate any risks that may be identified. Such assessments are the responsibility of local councils where the council is the consent authority because councils have the power to order buildings to be rectified.

As at 12 March 2018, a total of 412 buildings have been identified as requiring further assessment.

The Department of Planning is following a similar process with respect to any buildings in respect of which it is the consent authority.

(1) The buildings are located throughout New South Wales, and mostly in the Greater Sydney Metropolitan Area.

(b) The Taskforce has written, and continues to write, to owners and occupants of identified buildings, provided information online via dedicated pages on the Fair Trading website and conducted a state-wide advertising campaign (during February 2018).

(3) The Taskforce recommends that property owners commission professional assessments of buildings with potentially combustible cladding.

(4) This question should be referred to the Minister for Planning.

(8) The Taskforce has published public updates on its activities online and in media releases. The Taskforce has written, and continues to write, to owners and occupants of identified buildings.

(9) To date, the Taskforce has not been made aware of any determinations that building regulations have been breached in relation to any of the buildings that have been assessed.

(11) Yes.

(a) Not applicable.

(12) No.
