Answer—

I am advised:

Since 2011, the Government has invested over \$1.7 billion in roads in the Cessnock Electorate.

This includes investments of more than:

I am advised:

LEGISLATIVE ASSEMBLY QUESTIONS AND ANSWERS
Thursday 23 November 2017

- (1) The revised Noise Policy for Industry was released on 27 October 2017.
- (2) No.
- (3) Yes.
- (4) Yes. The conservative nature of the DEFRA criterion was considered in developing the Noise Policy for Industry.
- (5) Yes. In 2014 the Environment Protection Authority (EPA) liaised with the lead author of the DEFRA study, Prof Andy Moorhouse of the University of Salford, about this statement. Prof Moorhouse confirmed that the statement was included because levels of noise above the criteria are commonly acceptable and the approach may be conservative when used in predicting potential disturbance.
- (6) On some proposed projects the EPA provides advice to consent authorities on noise impacts.
- (7) See answer to Question 1.

*6950 CESSNOCK ELECTORATE SCHOOL CANTEENS—Mr Clayton Barr asked the Minister for Education—

- (4) Are these external operators required to implement the Healthy School Canteen Strategy?

Answer—

(1) to (4) I'm advised that canteens at Cessnock Public School and Cessnock East Public School have external operators, which are selected through a tender process in accordance with Department of Education and Government procurement policy.

Details of this policy are available on the NSW Department of Education website.

All New South Wales public schools are required to implement the NSW Healthy School Canteen Strategy by the end of 2019. The Department of Education will monitor implementation through its usual policy reporting processes.

*6951 FIREWORKS—Mr Clayton Barr asked the Minister for Innovation and Better Regulation—

- (1) What processes and costs are involved in obtaining an explosives licence, as per Part 3 of the Explosives Act 2003?
- (2) What notification or information is provided to residents who live close to where fireworks will be displayed?
- (3) What provisions or rights do those residents who object to fireworks close to their homes have?
- (4) Can residents prevent fireworks from being displayed near their home?

Answer—

(1) SafeWork NSW issues a range of explosives licences under Part 3 of the Explosives Act 2003, which vary in fees and processes depending on the licence type sought. If a person wants to use fireworks there are two types of licences – a pyrotechnician's licence and a fireworks (single use) licence.

SafeWork NSW maintains comprehensive factsheets and guides on obtaining these types of licences. The process and costs are best explained by these guides and therefore:

- SafeWork's guide to applying for a pyrotechnician's licence can be obtained here: http://www.safework.nsw.gov.au/_data/assets/pdf_file/0006/49884/guide_pyrotechnicians_licence_4691.pdf
- SafeWork's guide to applying for a fireworks (single use) licence can be obtained here: <http://www.safework.nsw.gov.au/media/publications/licences-and-registrations/SW08140-Guide-for-fireworks-single-use-licence-applicants.pdf>

The most up to date licensing fees are maintained online by SafeWork NSW. The schedule outlines fees for all applications administered by SafeWork NSW and can be accessed here: <http://www.safework.nsw.gov.au/media/publications/health-and-safety/licensing-fees>

(2) Notification and other requirements can be found in the 'Operational Conditions for Pyrotechnicians and Single Use Fireworks Licences' (the Conditions). Specifically, notification guidelines are outlined in section 3 of the Conditions. The Conditions are available online here: <http://www.safework.nsw.gov.au/media/publications/health-and-safety/licensing-fees>

[/www.safework.nsw.gov.au/media/publications/licences-and-registrations/operational-conditions-for-pyrotechnicians-and-single-use-fireworks-licences](http://www.safework.nsw.gov.au/media/publications/licences-and-registrations/operational-conditions-for-pyrotechnicians-and-single-use-fireworks-licences).

All notifications for fireworks displays are entered onto the SafeWork NSW website advising of the date, time and location of notified fireworks displays; the website is located at: www.safework.nsw.gov.au/information-searches/fireworks-display/search.

SafeWork NSW may suspend or cancel a licence, impose penalties on licence holders (fines), and can prosecute those who do not comply with licence requirements.

(3) Residents can lodge a complaint with their local council or SafeWork NSW on 13 10 50, when they receive notification of an intention to use fireworks. Further information on how to make complaints is available for neighbours and community members on the SafeWork NSW website and in the SafeWork NSW publication entitled Guidelines for Council which can be obtained here: www.safework.nsw.gov.au/_data/assets/pdf_file/0018/113346/SW08352-Guidelines-for-Council-when-notification-of-an-intention-to-use-fireworks-.pdf

Impacts of fireworks displays in any area are considered through the right of objection of local councils. If council objects to the display, SafeWork NSW will not issue a fireworks (single use) license or a display acknowledgement number and the display cannot go ahead.

SafeWork NSW works with local councils to ensure that fireworks displays meet the health and safety needs of the community and the licence conditions. SafeWork also ensures that displays meet Australian Standard AS 2187.4 Explosives - Storage, transport and use - Pyrotechnics – Outdoor displays.

*6952 SCHOOLS DEEMED AT CAPACITY IN THE FAIRFIELD ELECTORATE—Mr Guy Zangari asked the Minister for Education—

 - (a) Are any of these schools scheduled to have permanent buildings constructed to increase capacity?
 - (b) Are any of these schools scheduled to have temporary buildings installed to increase capacity?

Answer—

Every eligible student who wishes to attend a New South Wales public school will be given a place at their local school. Accordingly, the Department of Education does not have fixed enrolment capacities at New South Wales public schools. Schools have the capacity to adapt to fluctuating enrolments through the use of a combination of temporary and permanent teaching spaces.

- (4) When are works projected to commence to resolve this matter?
- (5) When are works projected to be completed?

Answer—

I am advised:

(1) Yes. Sydney Trains has contacted the Fairfield City Council on several occasions to discuss a drainage solution for the area.

(2) Sydney Trains has cleared all drainage within the subway and also installed additional drains along the subway walls to improve the drainage in the underpass.

It has been determined water enters the subway from street level, due to a blocked drain which is the Council's responsibility to maintain.

- (2) How much of this revenue has gone back into funding for Fairfield Hospital's facilities?

*6978 PLASTIC FIBRES IN DRINKING WATER SUPPLY—Ms Julia Finn asked the Minister for Lands and Forestry, and Minister for Racing representing the Minister for Primary Industries, Minister for Regional Water, Minister for Trade and Industry—

What testing for plastic fibres in the drinking water supply is being undertaken by local water utilities?

Answer—

The Australian Drinking Water Guidelines provide guideline values for known contaminants of drinking water that may present a health risk. The Australian Drinking Water Guidelines do not provide any guidelines for micro-plastics or plastic fibres in drinking water.

As a result, local water utilities in regional New South Wales do not test for micro-plastics or plastic fibres in the drinking water supply.

Further information and questions on the Australian Drinking Water Guidelines are a matter for NSW Health and should be referred to the Minister for Health, the Hon Brad Hazzard, MP.

*6982 NEWCASTLE 500—Mr Tim Crakanthorp asked the Minister for Tourism and Major Events, and Assistant Minister for Skills—

- (1) Has the Minister power of review of the independently audited acoustic assessment undertaken for the Newcastle 500?
 - (a) If not, why not?
- (2) Why has the Government not released all information relating to noise modelling and the independently audited acoustic assessment for the Newcastle 500?
- (3) Will this decision be reconsidered?
- (4) Will the independently audited acoustic assessment be released?
 - (a) If not, why not?
- (5) Have you met with residents to discuss their concerns?
 - (a) If not, will you meet with residents to discuss their concerns?
- (6) How many residents have the staff from the Newcastle 500 Co-ordination Office met with?
- (7) Is it considered that one lift access point is adequate to meet the needs of residents and visitors with disabilities at the Newcastle 500?

Answer—

(1) The Motor Racing (Sydney and Newcastle) Act 2008 does not require the Minister for Tourism and Major Events or Destination NSW to have completed or reviewed the independently audited acoustic assessment or Supercars Australia's Noise Management Plan or to distribute any information in such regard to other parties.

(2) Supercars Australia commissioned a professional acoustic engineer to undertake a noise assessment specific to the Newcastle 500 circuit. While the full report has not been made publicly available, residents and businesses can access data relating to their address by making a request to Supercars Australia.

(3) and (4) See answer to question 2.

*6983 WILLIAMTOWN CONTAMINATION INVESTIGATION—Mr Tim Crakanthorp asked the Minister for the Environment, Minister for Local Government, and Minister for Heritage—

- (1) When will the Environment Protection Authority investigations of the expansion of the red zone be completed?

*6984 OBESITY PREVENTION—Mr Alex Greenwich asked the Minister for Health, and Minister for Medical Research—

- (1) What assessment has the Government carried out of obesity in New South Wales?
- (2) What costs to the New South Wales health system has the Government identified?
- (3) What obesity prevention programs does the Government provide or fund?
- (4) What advocacy has the Government carried out with the Commonwealth for a national plan and systematic action?
- (5) What further action will the Government take to prevent obesity?

Answer—

The primary source of information in relation to levels of overweight and obesity in New South Wales is the NSW Population Health Survey and this has been complemented with the NSW Schools Physical Activities and Nutrition Survey which is conducted periodically (most recently 2015).

The financial cost of obesity in Australia was estimated to be \$8.3 billion in 2008 (\$3.6 billion estimated to be related to productivity costs, \$2.0 billion related to health system costs and carer costs were in the order of \$1.9 billion). In addition, the cost of lost wellbeing for individuals was valued at \$49.9 billion, bringing the total economic cost of obesity to \$58.2 billion across Australia, with \$19.0 billion being apportioned to New South Wales.

The suite of initiatives being implemented to address overweight and obesity in New South Wales is detailed in the NSW Healthy Eating and Active Living Strategy 2013-2018 which is available at <http://www.health.nsw.gov.au/health/Publications/nsw-healthy-eating-strategy.pdf>.

New South Wales will continue to actively pursue national approaches to overweight and obesity prevention through the appropriate mechanisms. The Government is working with the Commonwealth on the implementation and review of the Health Star Rating front-of-pack labelling system and other food labelling initiatives as part of its participation in the Australia New Zealand Ministerial Forum on Food Regulation.

NSW Health is working with the Commonwealth on the Healthy Food Partnership. The Partnership aims to improve the dietary habits of Australians by making healthier food choices easier and more accessible and to raise awareness of better food choices and portion sizes.

- (6) What advice does the Government provide to farmers, landowners and gardeners about the dangers of neonicotinoid pesticides?
- (7) What further action will the Government take to protect bees and pollination, ensure safe food supplies and prevent human health impacts from neonicotinoid pesticides?

Answer—

(1) Assessment of Honey bees and factors that may affect the health of their colonies is undertaken by three key agencies. NSW Department of Primary Industries (NSW DPI) regulates honeybee pest and disease related matters in the state via the Biosecurity Act 2015. Regulatory activities include registration surveillance for bee pest and diseases, receiving and investigating reports of pests and diseases, a dedicated bee biosecurity officer working with commercial beekeepers and the production of guidelines and presentations for bee keepers.

Complaints relating to suspected poisoning of bees by agricultural chemicals are the responsibility of the NSW Environment Protection Authority. The assessment of the impacts of agricultural chemicals remains a matter for the Australian Pesticides and Veterinary Medicines Authority (APVMA).

(2) The assessment of the impacts of agricultural chemicals remains a matter for the Australian Pesticides and Veterinary Medicines Authority (APVMA). The APVMA registration process includes an assessment of the risk to bees for every pesticide product registered. Bee safety instructions are included on product labels of all new insecticides. In September 2015 the APVMA published its "Roadmap for insect pollinator risk assessment in Australia" which was implemented in 2016.

(3) The assessment of agricultural chemicals is a matter for the Australian Pesticides and Veterinary Medicines Authority (APVMA).

(4) The Commonwealth Department of Agriculture and Water Resources (DAWR) conducts National Residue Survey testing up to 150 Australian honey samples each year for residues of the five commonly used neonicotinoids in Australia. Survey results are published on the DAWR website.

(a) The appropriate body to consider this matter is the APVMA.

(5) The appropriate body to consider this matter is the APVMA.

(6) As per Commonwealth legislative requirements, advice surrounding agricultural chemicals is managed via product label instructions.

(7) NSW DPI regulates honeybee pest and disease related matters in the state via the Biosecurity Act 2015. Regulatory activities include registration surveillance for bee pest and diseases, receiving and investigating reports of pests and diseases, a dedicated bee biosecurity officer working with commercial beekeepers and the production of guidelines and presentations for bee keepers. The Department of Primary Industries is soon to publish an AgGuide on managing honey bees for pollination and is conducting workshops on pollination using honey bees. Five workshops have been delivered this year, to date.

- (c) Six to 12 months;
- (d) Over 12 months?
- (3) How many principals are currently in their role in an acting or relieving capacity (excluding long service leave)?

(2) I'm advised that as at 19 October 2017, there were eight executive positions at schools in the Lakemba electorate that were not yet permanently filled. For executive staff, the Principal or Director Public Schools arranges for a qualified member of staff to relieve in that position.

(3) Student enrolment data is available via the NSW Department of Education website.

(4) and (5) I'm advised that between 20 December 2014 and 19 October 2017, eight demountable classrooms were added to schools and four demountable classrooms were removed from schools in the Lakemba electorate.

The Department of Education uses demountable buildings for purposes such as managing changing enrolment patterns. Demountables provide air-conditioned learning environments to schools and allow the department to be highly responsive to changing needs in schools across New South Wales.

*6992 MOORE PARK MASTER PLAN—Mr Alex Greenwich asked the Minister for the Environment, Minister for Local Government, and Minister for Heritage—

- (1) Will the Government release submissions to the draft Moore Park Master Plan?

- (4) What has been the total cost of ameliorating asbestos in New South Wales schools in each year from 2014 to 2017 (to 19 October 2017)?

Answer—

I'm advised:

The Department of Education maintains an Asbestos Register for each NSW public school which details the location of all asbestos and presumed asbestos containing materials (ACM).

These registers are publicly available at <https://education.nsw.gov.au/about-us/strategies-and-reports/our-reports-and-reviews/schools-asbestos-register>.

There are no known instances of staff or students having been exposed to unsafe asbestos.

There are no recorded deaths of staff members for the past 20 years attributed to exposure to asbestos in a school environment.

Asbestos remediation can be carried out through a range of works including refurbishments and maintenance. Such works do not separate asbestos remediation as a specific cost item, so a precise overall figure for such works is difficult to calculate.

- (1) Considering the nationally-recognised Domestic Violence Orders which will come into effect on 25 November 2017, will the requirement for NSW Police Force officers to contact the relevant state and territory authorities to access a nationally-recognised Domestic Violence Order affect the ability of NSW police officers to charge offenders?
- (2) What policies and measures have been developed by the NSW Police Force to respond to the implementation of nationally-recognised Domestic Violence Orders?

Answer—

I am advised:

- (1) The National Domestic Violence Order Recognition Scheme (NDVOS) will not adversely impact the ability of the NSWPF to arrest or detain an offender prior to charging them. The NSWPF has various options available to deal with an offender prior to the charging process for a suspected breach of a nationally recognised Domestic Violence Order (DVO).
- (2) The NSWPF has made numerous changes to its systems and procedures in response to the NDVOS and is continuing to work with other stakeholders, including the courts and police from other jurisdictions, on a common approach to the NDVOS.

*7004 GREEN COVER—Mr Alex Greenwich asked the Minister for the Environment, Minister for Local Government, and Minister for Heritage—

LEGISLATIVE ASSEMBLY QUESTIONS AND ANSWERS
Thursday 23 November 2017

- (1) What assessment has the Government made of environment and health impacts of canopy and green cover loss in Sydney?
- (2) What assessment has the Government made of the RMIT report "Where Should All The Trees Go" and the impacts of canopy and green cover loss?
- (3) What programs does the Government operate to:
 - (a) Encourage retention of green cover;
 - (b) Support re-greening of urban areas where possible; and
 - (c) Support local councils to re-green?
- (4) What action will the Government take to redress this loss and its impacts?

Answer—

I am advised:

(1) No specific assessment of environment or health impacts resulting from canopy loss in Sydney has been undertaken by the Office of Environment and Heritage (OEH).

(2) No formal assessment has been made on the RMIT report.

(3) Since 2011, the Government has promoted the use of green cover such as vegetated, permeable and reflective surfaces as a low cost strategy to increase community resilience to expected climate change impacts. This has produced resources, networks and research to assist built environment professionals to implement green cover projects.

The Green Cover Demonstration Project and award-winning Technical Guidelines for Urban Green Cover in New South Wales provide practical information to plan, procure and implement vegetated and reflective roofs, green walls, street plantings, permeable and reflective road surfaces, and cool open spaces.

OEH's Urban Greening Masterclasses for local government encouraged peer to peer sharing of urban greening skills and knowledge at local government level, and the Building Resilience to Climate Change grants program funded seven local government projects totalling \$501,860 that minimise heat risks on local communities.

OEH has also undertaken scientific research into the heat mitigation benefits of urban trees and used the government's climate change projections to estimate impacts on urban heat islands in Sydney.

(4) These programs and research are providing a basis for new programs and actions to protect communities from urban heat and climate change impacts. The Government is also considering future actions under the Climate Change Fund Draft Strategic Plan

- (2) What has been the outcome of these discussions?
- (3) Is the Government funding the construction of a new school at Newcastle West?

Answer—

I'm advised that:

The Department of Education's asset planners met with a representative of the property developer, Core Projects Group, on 17 October 2017. The department has not requested nor been involved in any part of the preparation of the proposed vertical school in Newcastle West. It is understood that the proponent is in negotiations with a number of private school operators for the potential future acquisition and operation of the school should it be developed.

The developer was informed that there is existing capacity to meet forecast enrolment demand within existing local schools in the area.

The department is currently undertaking schools planning at Newcastle in recognition of current and planned residential development within the CBD and surrounds. The department has met and will continue to liaise with key stakeholders including Newcastle City Council, UrbanGrowth NSW, local school communities and the University of Newcastle to inform any future school developments.

*7017 LOW DEPOSIT HOME LOAN SCHEME—Ms Tania Mihailuk asked the Treasurer, and Minister for Industrial Relations—

- (1) Will the Government implement low deposit home loan schemes such as those that have been implemented in Western Australia and South Australia in response to the housing affordability crisis?
- (a) If not, why not?

Answer—

The Government's reforms to support first home buyers have been a great success, with over 10,000 individuals and families taking advantage of the Government's First Home Buyers Scheme in the first four months of the scheme.

The Government's Housing Affordability package includes direct support for first home buyers:

- Abolishing stamp duty for first home buyers on existing and new homes up to \$650,000 and stamp duty discounts up to \$800,000. These changes provide savings of up to \$24,740 for first home buyers;
- Abolishing stamp duty on lenders' mortgage insurance, which is often required by first home buyers with limited deposits, providing a saving of around \$2,900 on an \$800,000 property;
- Doubling the foreign investor surcharge from 4 per cent to 8 per cent on stamp duty and 0.75 per cent to 2 per cent on land tax; and
- Removing stamp duty concessions for investors purchasing off the plan.

*7028 PAYROLL TAX REBATE—Ms Jenny Aitchison asked the Treasurer, and Minister for Industrial Relations—

(3) Why has the Government allocated \$135 million less?
(4) Has the Payroll Tax Rebate Scheme attracted less interest from small businesses across New South Wales than was expected?

Answer—

Figures relating to the Payroll Tax Rebate Scheme are publicly available in the 2016-17 Budget Papers and the 2017-18 Budget Papers.

Since the policy's inception, over 34,000 positions have been created with over 4,000 small businesses applying for the rebate. This is another policy undertaken by the Government to ensure that New South Wales is the best place to live, work, run a business and raise a family.

*7029 NATIONALLY RECOGNISED DOMESTIC VIOLENCE ORDERS—Ms Jenny Aitchison asked the Attorney General—

- (1) Considering the Nationally Recognised Domestic Violence Orders (DVO) which will come into effect on 25 November 2017, how long will it take for a previously issued (before 25 November 2017) New South Wales DVO to become nationally recognised and declared?
(2) Will the amended DVOs need to be served upon the Defendant once they have been nationally recognised?
(3) If a previously issued DVO is not served upon the Defendant, what impact will this have upon the ability of Police to enforce the order in another state?

Answer—

I am advised:

When the National Domestic Violence Order Scheme commences, registrars and courts in New South Wales will be empowered to declare domestic violence orders (DVOs) made prior to 25 November 2017 to be recognised and enforceable across Australia. A declaration can be made immediately after an application for a declaration is received. Courts are aiming to make decisions concerning declarations within 48 hours of receiving the application.

There is no requirement to re-serve the defendant once a declaration has been made. The declaration process does not impact on existing requirements for service of DVOs.

LEGISLATIVE ASSEMBLY QUESTIONS AND ANSWERS
Thursday 23 November 2017

- (c) Carramar Train Station;
(d) Villawood Train Station?

Answer—

I am advised:

The Government recently allocated a further \$200 million to the Transport Access Program, boosting our total investment to \$1 billion. Since the program began in 2012, more than 450 projects have been completed or are underway. This includes accessibility upgrades such as lifts and ramps, improved interchanges and commuter car parks. These improvements make it easier for customers to access public transport and provide a more comfortable travel experience.

Stations across the network are currently being assessed to see which ones are delivered under this program. This assessment process uses evidence-based criteria, including current and future patronage. It takes into account the needs and demographics of customers who use the station. It also considers the location of important services, such as hospitals or schools and the accessibility of other transport interchanges. Lifts at Canley Vale, Yennora, Carramar, and Villawood stations will be considered as part of this process.

*7032 SPECIAL NEEDS INMATES IN NEW SOUTH WALES CORRECTIONAL CENTRES—Mr Guy Zangari asked the Minister for Health, and Minister for Medical Research—

Answer—

Requests for data on detained inmates with a physical disability should be referred to the Minister for Corrections.

The Justice Health and Forensic Mental Health Network is responsible for delivering mental health care to adults and young people in custody. Data on attended mental health appointments does not provide a direct correlation to prevalence of mental illness.
