LEGISLATIVE ASSEMBLY QUESTIONS AND ANSWERS  
TUESDAY 4 DECEMBER 2007

**26 OCTOBER 2007**

(Paper No. 29)

\*1243 **COAL ROYALTIES AND CLEAN COAL TECHNOLOGY**—Mr Peter Debnam asked the Minister for Emergency Services, Minister for Water Utilities representing the Minister for Primary Industries, Minister for Energy, Minister for Mineral Resources, and Minister for State Development—

With regard to coal royalties and clean coal technology:

- (1) In each financial year from 2000-01 to 2006-07, how much revenue did the NSW Government receive in coal royalties?
- (2) In each financial year from 2000-01 to 2006-07, how much funding did the NSW Government invest in clean coal technology initiatives?
- (3) In the financial years from 2007-08 to 2010-11, what funding is budgeted (current budget and forward estimates) to support clean coal technology initiatives?

Answer—

- (1) 2000-01 - \$197.0 million  
2001-02 - \$202.0 million  
2002-03 - \$206.5 million  
2003-04 - \$200.5 million  
2004-05 - \$354.5 million  
2005-06 - \$447.0 million  
2006-07 - \$411.9 million
- (2) The NSW Government funding information is detailed in the Budget papers.
- (3) Budget and Estimates information is detailed in the NSW Budget papers.

\*1247 **MAINTENANCE WORK PROGRAM FOR PUBLIC SCHOOLS**—Mrs Judy Hopwood asked the Deputy Premier, Minister for Transport, Minister for Finance representing the Minister for Education and Training, Minister for Industrial Relations, Minister for the Central Coast, and Minister Assisting the Minister for Finance—

- (1) What is the timetable for the Department of Education and Training to prepare the annual program of maintenance work for public schools?
- (2) What public schools in the Hornsby electorate currently have outstanding maintenance work requests with the Department of Education?
- (3) What is this outstanding work?
- (4) When is each work request scheduled for completion?

Answer—

The NSW Labor Government is investing a record \$873 million this financial year to upgrade and maintain NSW public schools and TAFEs. This funding includes over \$700,000 per day on maintenance to ensure schools and TAFEs are safe and efficient places to teach and learn.

The Department of Education and Training develops an annual program of maintenance works between July and December of each year and the program is then progressively implemented.

The Department of Education and Training has identified maintenance work to be carried out at the following schools in the Hornsby electorate - Asquith Boys High School, Asquith Girls High School, Asquith Public School, Cherrybrook Technology High School, Clarke Road School, Galston High School, Galston Public School, Hornsby Girls High School, Hornsby Heights Public School, Hornsby North Public School, John Purchase Public School, Normanhurst Public School, Normanhurst West Public School, Thornleigh West Public School, Waitara Public School and Wideview Public School

Maintenance work includes repainting, repairs to flooring, repairs to external surfaces, repairs to roofs and other general repairs. Works are scheduled to be completed during the current term of Government.

\*1254 **EPPING TO CHATSWOOD RAIL LINK**—Mr Jonathan O'Dea asked the Deputy Premier, Minister for Transport, Minister for Finance—

- (1) What is the expected extra daily train traffic volume expected to flow from the Epping to Chatswood rail link onto the North Shore rail line south of Chatswood?
- (2) What is the timetable for building an extra rail track on the North Shore Line?

Answer—

I am advised:

- (1) and (2) The Epping to Chatswood Rail Line will provide an alternative path from Hornsby to the city via Epping. This path will enable four city bound trains per hour to be diverted from the Main North line at Epping and onto the North Shore line at Chatswood.

By diverting four city bound trains per hour from the Main North line, the available capacity of the North Shore line between Chatswood and the CBD is effectively utilised, allowing for additional Main West services between Strathfield and the city, and increasing capacity to accommodate an extra 18,000 people.

- \*1257 "OBVIOUS OVERSIGHT"—PETER MERCIECA AND LAURA MCHARG—Mr Adrian Piccoli asked the Minister for Climate Change Environment and Water—

With respect to a statement on 10 November 2004 by senior Department of Natural Resources licensing officer Brian Graham to solicitor John Clarke that the department had made an "obvious oversight" at the expense of Peter Mercieca and Laura McHarg:

- (1) What was the 'obvious oversight'?  
(2) What action is to be taken in relation to the 'obvious oversight'?

Answer—

- (1) Department records indicate that the context of the original allegation concerns the Merciecas dissatisfaction with a 1998 water amnesty process. According to the Merciecas, the Department did not consult with them (during the amnesty process) and therefore had made an "obvious oversight". The Department refutes this claim and believes there was no oversight in its dealing with this matter.  
(2) The Department has worked diligently to mediate this dispute between neighbours and has obtained a 1 ML water licence for Merciecas to access water from their neighbour's dam. This is commensurate with the amount of water the Merciecas could access (without a licence under current legislation) by constructing their own farm dam.

- \*1261 REVIEW OF COASTLINE POLICIES—Mr Rob Stokes asked the Minister for Climate Change Environment and Water representing the Minister for Lands, Minister for Rural Affairs, Minister for Regional Development—

In light of the new information that has emerged over the past decade about the threat to NSW beachfronts posed by greenhouse induced climatic change and predicted increases in sea levels, will you review the Coastline Management Manual, the Coastline Hazards Policy and the NSW Coastal Policy?

Answer—

While the current Coastline Management Manual does recognise the potential impacts of climate change on coastal management options, a review of the Manual to incorporate the underlying principles for coastal zone management and ecological sustainable development detailed in the NSW Coastal Policy has been undertaken.

The Department of Environment and Climate Change has prepared a new Coastal Zone Management Manual to provide generic guidelines for councils to follow during the preparation of coastal zone management plans and will be released for public exhibition in the future. It is intended that supporting appendices will be web based to enable regular updates as new information about climate change and other issues becomes available.

It is not intended that the Coastline Hazards Policy will be reviewed at this time. Its objectives have to a large extent been incorporated into the current NSW Coastal Policy. The policy underpins the Regional Strategies and the new Coastal Zone Management Manual.

I suggest that you refer your question on the NSW Coastal Policy to my colleague, the Hon Frank Sartor MP, Minister for Planning, for comment.

- \*1262 MONA VALE POLICE STATION—Mr Rob Stokes asked the Minister for Police, Minister for the Illawarra—

How many police officers and vehicles will be assigned to Mona Vale Police Station on completion of the refurbishment and rebuilding works?

Answer—

The NSW Police Force has advised me:

LEGISLATIVE ASSEMBLY QUESTIONS AND ANSWERS  
TUESDAY 4 DECEMBER 2007

---

Staffing allocations within a Local Area Command are a matter for the Local Area Commander. I understand current staffing levels are projected to continue following the refurbishment of Mona Vale police station. There are two vehicles based at the location, including one attached to the Command Weapons Training Unit.

\*1263 POLICE PRESENCE IN PITTWATER—Mr Rob Stokes asked the Minister for Police, Minister for the Illawarra—

What arrangements will be implemented to ensure an adequate police presence in Pittwater during the summer months when there is traditionally a rise in the number of recorded crimes?

Answer—

The NSW Police Force has advised me:

The Northern Beaches Local Area Command has an appropriate level of resources to address policing needs in the Pittwater area during the busy summer months. General Duties police and vehicle crews will be supported by additional high visibility Vikings operations during November and December and into 2008. The Command also has a proactive team tasked with targeting crime areas in the Command as well as the additional resources of Highway Patrol police.
