- * 2966 ALCOHOL IGNITION INTERLOCK LIMITATIONS—Mr Roy Butler to ask the Minister for Customer Service and Digital Government, Minister for Emergency Services, and Minister for Youth Justice—

- (1) Given that limited Alcohol Ignition interlock installers can be found in regional and rural New South Wales, can the Minister advise how drivers issued with notice to complete the Alcohol Ignition Interlock program can have their interlock device installed?
- (a) What are the requirements if drivers undertaking the program reside more than 150km from the nearest interlock installers place of business?
- (2) Would the Minister consider aligning the New South Wales exemption rules for this program with that of the Queensland Government, whereby residents who live more than 150km from the nearest installer can apply for an exemption?

Answer—

This question should be directed to the Minister for Regional Transport and Roads.

- * 2967 ALCOHOL IGNITION INTERLOCK EXEMPTIONS—Mr Roy Butler to ask the Minister for Customer Service and Digital Government, Minister for Emergency Services, and Minister for Youth Justice—

In Queensland drivers who have been ordered to complete the Alcohol Ignition Interlock program can be exempt from the program if they live more than 150km from the nearest interlock installer, these rules do not align with what is expected in New South Wales:

- (1) Are drivers exempt from the program in Queensland expected to complete the Interlock program if they move residence to New South Wales?
 - (a) Does this expectation still apply even if the driver has been issued with a program completion notice by the Queensland Government?

Answer—

This question should be directed to the Minister for Roads.

- * 2968 INCONSISTENCIES IN DRIVER LICENCE REGULATIONS INTERSTATE—Mr Roy Butler to ask the Minister for Customer Service and Digital Government, Minister for Emergency Services, and Minister for Youth Justice—

- (1) Given that Drivers Licence requirements, rules and regulations are vastly inconsistent interstate, has consideration been given to codify these laws so that they are consistent Australia wide?

- * 2969 WIND FARMS ON AGRICULTURAL LAND—Mr Roy Butler to ask the Minister for Small Business, Minister for Lands and Property, Minister for Multiculturalism, and Minister for Sport—

- (1) Do perpetuity leaseholders who host wind farms on their agricultural land receive ongoing rent from developers, at various rates depending on the conditions of individual agreements?
- (2) In cases as above, does Crown Lands have the authority to deduct between 40-50% of the annual rent back from the leaseholder?
 - (a) If so, why?

Answer—

I am advised:

Perpetual Western Lands leaseholders in the Western Division of NSW can facilitate renewable energy developments on their properties in partnership with the Department of Planning, Housing and Infrastructure - Crown Lands.

The Crown Land Management Act 2016 gives the Minister power to grant a Special Purpose Lease for renewable energy purposes over land subject to a perpetual Western Lands Lease with the consent of the leaseholder.

The Special Purpose Lease is between the Minister and the renewable energy proponent, with a separate agreement negotiated between the Minister and the Western Lands leaseholder.

Rent payable for the project is negotiated between the Minister and renewable energy proponent and shared between Crown Lands and the Western Lands leaseholder.

The rent share model utilised by the Department generally involves Crown Lands receiving approximately 55% of the rent and the Western Lands leaseholder receiving 45%.

The rent share agreement is reflective of Crown Lands being wholly responsible for:

- Negotiating the lease with the renewable energy proponent, which in some cases can take up to 2 years to finalise;

LEGISLATIVE ASSEMBLY QUESTIONS AND ANSWERS
Thursday 20 June 2024

- Administering the lease for the term of the lease, which can be for up to 30 years; and

* 2970 MINISTERIAL CONTACT LISTS FOR ELECTORATE OFFICERS—Mr Roy Butler to ask the Premier—

(1) To reduce the number of representations being sent to Ministers offices, will the Premier provide Electorate Officers with contact lists including email addresses and phone numbers for Government departments and its sub departments?

(a) If not, why not?

Answer—

I am advised;

The NSW Government Directory provides the contact details for government departments, agencies, offices and other entities within New South Wales, including contact email addresses and phone numbers: [NSW Government Directory | Service NSW](#)

This includes a directory of departments and agencies listed from A to Z: [NSW Government Directory A to Z | Service NSW](#)

All ministerial contacts are published at [Contact a Minister | NSW Government](#)

These web pages are regularly updated to ensure contact details are up to date, and as such are a more appropriate resource than a typed list of email addresses and phone numbers that may be rendered out of date through machinery of Government changes and other such changes.

* 2971 EPA REQUEST FOR INFORMATION FROM SANTOS—Mr Roy Butler to ask the Minister for Customer Service and Digital Government, Minister for Emergency Services, and Minister for Youth Justice representing the Minister for Climate Change, Minister for Energy, Minister for the Environment, and Minister for Heritage—

Can the Minister provide the information which was requested by the Environmental Protection Authority from SANTOS on the 4th November 2022, regarding potential environmental risk, Environmental Protection Licence EPL 20350 pertaining to Narrabri Gas Project includes a condition concerning environmental liability insurance, which is the list which defines the type and scale of pollution incident covered under the EPA insurance and any other forms of provisioning for environmental liability?

Answer—

On 4 November 2022, the NSW Environment Protection Authority (EPA) asked Santos for a further explanation of its considerations in obtaining relevant insurance policies. The EPA also informed Santos of the proposed conditions in a licence variation under section 58 of the Protection of the Environment Operations Act 1997 regarding the environmental liability conditions to be included.

In November 2022, the EPA subsequently varied environment protection licence number 20350 (EPL 20350) to require Santos to provide evidence of its insurance policy required under the licence and evidence of any asset provisioning or other financial arrangements, as relevant, to the EPA by 1 July 2023, and with each annual return. Santos has been complying with these obligations. Details of Santos' specific insurance and assurance arrangements under EPL 20350 are commercially sensitive information.

The findings from the pilot are currently being reviewed by the Department of Education and Transport for NSW. The findings from this review will be presented to Government for further consideration.

- (3) If no plans exist, would the Minister consider exploring a solar battery rebate program to align with New South Wales' renewable energy goals?

Answer—

- (1) The NSW Government is investing \$238.9 million to support the forthcoming Consumer Energy Strategy. As part of this Strategy, the NSW Government will consider programs to support households to invest in rooftop solar, household batteries and other energy efficiency upgrades.

This investment comes on top of the recent announcement that homes and businesses with rooftop solar will be able to take advantage of new incentives through the Peak Demand Reduction Scheme (PDRS) to install residential battery storage and connect to a Virtual Power Plant later in 2024.

- (2) The NSW Government is finalising the Consumer Energy Strategy and further details of any programs will be available at a later date.

* 2977 PETS ON PUBLIC TRANSPORT—Ms Stephanie Di Pasqua to ask the Minister for Transport—

- (1) Do you have plans to support a trial to allow pets on public transport?

Answer—

I understand that many passengers are pet owners and would benefit from taking their pets on public transport. Those benefits must be carefully weighed against the needs of passengers with disability, allergies or phobias, and transport workers.

This is a complex issue requiring careful consideration.

Transport for NSW is developing a plan to consult around options for a limited trial, commencing with transport workers and organisations who represent people with disability.

Answer—

I am advised that the Kokoda Track Memorial Walkway received a one-off grant from NSW Government of \$600,000.00 in 2021 to be used over the subsequent four years to assist with specific projects, and with a particular focus on future sustainability.

The NSW Government supports over 3,700 memorials across NSW through the Community War Memorials Fund which has an annual allocation of \$250,00 for conservation of significant war memorials across the State.

There is no additional budget available to support memorial operational or recurrent costs. These costs are traditionally supported by Local Government and through local community and ex-service organisation efforts.

- (2) If a policy exists, can you share how you actively implement measures to ensure the conduct of your agencies and staff do not adversely find themselves competing with private sector service providers?
- (3) Since biosecurity is underpinned by local and regional capacity, what policies or practices does your department have in place at present to ensure the participation and maintaining viability of private sector service providers?

Answer—

- (1) The Department of Regional NSW (DRNSW) and associated agencies are required to comply with the NSW Government Procurement Policy Framework. This includes compliance with TPP 02-1 Policy Statement on the Application of Competitive Neutrality.

DRNSW has also appeared at the current NSW Legislative Council inquiry into Procurement practices of government agencies in New South Wales and its impact on the social development of the people of New South Wales, which includes the application of the New South Wales Procurement Policy Framework in its Terms of Reference.

- (2) Commercial divisions within DRNSW apply similar operating measures to comply with TPP 02-1, including reviewing the price of activities carried out on a fee-for-service or cost-recovery basis, while adjusting for inflation.

All divisions within DRNSW are subject to periodic internal audit reviews including the application of Competitive Neutrality Policy measures. DRNSW continues to review the price of services relative to the market and where the market is active, those services are removed where possible. This ensures the Department does not adversely compete with private sector providers.

- (3) The NSW Government's Biosecurity capability is underpinned by the DRNSW teams located across NSW. Biosecurity laboratories are mainly located at Elizabeth Macarthur Agricultural Institute (EMAI) in Camden with smaller facilities at Wagga Wagga, Orange and Wollongbar.

All biosecurity activities are underpinned by local and regional capacity and where biosecurity services are not available within the NSW Government laboratory network these services are tendered out to private sector service providers. These opportunities are competitively tendered on the State Government eTender site managed by Buy.nsw and can be viewed by the private sector for companies who are registered on Supplier Hub.

* 3001 O'CONNELL AVENUE OF TREES WAR MEMORIAL—The Hon. Paul Toole to ask the Minister for Aboriginal Affairs and Treaty, Minister for Gaming and Racing, Minister for Veterans, Minister for Medical Research, and Minister for the Central Coast—

In relation to World War One War Memorial in O'Connell known as the O'Connell Avenue of Trees:

(1) Is this war memorial of state significance?

(2) Has the Minister's office been in contact with the local community or associated energy companies in relation to the pruning of the avenue of trees as a transport route for wind turbines?

(5) Is there a process for removing or disrupting war memorials in New South Wales?

(a) If so, what is it?

(6) Is there a process for conserving war memorials in New South Wales?

(a) If so, what is it?

Answer—

I am Advised that:

- (1) A 'State significant war memorial' classification does not exist as a statutory or non-statutory listing. The State Heritage Register lists items that are significant for NSW and protected under the Heritage Act 1977. The O'Connell War Memorial Avenue of Honour is not listed on the State Heritage Register as a State Heritage Item.
- (2) My office has been in contact with members of the local community including the 'Oberon Against Wind Turbines' group in relation to the avenue. No communication has been made between the associated energy companies or my office.
- (3) The decision making authority for the project is the Independent Planning Commission and I understand that no final decision has been made on this project.
- (4) There is no distinct process for 'removing or disrupting' war memorials. See answer 6 in relation to guidelines for caring for war memorials.
- (5) War memorials in NSW are highly varied and have differing conservation requirements depending on their age and the nature of the memorial. General recommended principals and processes for the conservation of war memorials are set out in The Caring for our war memorials guide (<https://www.veterans.nsw.gov.au/assets/Community-War-Memorials-Fund/Caring-for-our-War-Memorials-NSW-Public-Works.PDF>) which refers to The Burra Charter: the Australia /COMOS Charter for Places of Cultural Significance, 2013.

Grants to conserve war memorials are available bi-annually through the NSW Government's Community War Memorials Fund which supports best practice conservation standards. The O'Connell Valley Community Group received a grant from this fund in 2020 to support arborist work to the O'Connell First World War Memorial Avenue of Honour, including the removal and replacement of six sick and dying trees.

LEGISLATIVE ASSEMBLY QUESTIONS AND ANSWERS
Thursday 20 June 2024

Answer—

I'm advised:

Details of the Shellharbour Hospital project are available on the Health Infrastructure website.

The NSW Government identified a \$60 million shortfall in the budget for the Shellharbour hospital. The shortfall was a legacy leftover by the previous government for the current Government to fix.

I was very pleased to announce the additional \$60 million in this years budget.

* 3003 AMBULANCE STATIONS IN THE KIAMA ELECTORATE—Mr Gareth Ward to ask the Minister for Health, Minister for Regional Health, and Minister for the Illawarra and the South Coast—

With respect to the new Shellharbour Hospital project:

- (1) Has the Bomaderry Ambulance Station received the increase in staff committed by NSW Ambulance in 2023?
- (2) If yes, how many additional staff have been located at this station?
- (3) Has the new staffer assigned to Kangaroo Valley station commenced work?
 - (a) If so, when was their first shift?
 - (b) If so, was the shift dual staffed and was the vehicle operational?
- (4) Is NSW Ambulance considering a new ambulance station for the Albion Park, Tullimbar or Calderwood area?
- (5) What metrics and decision making is used to determine the locations of new ambulance stations in New South Wales?

Answer—

I'm advised:

The Bomaderry and Kangaroo Valley communities are serviced by the Illawarra Zone.

Under the State-wide Workforce Enhancement Program (SWEP), the Illawarra Zone has benefited from an enhancement of 60 paramedics.

Three additional paramedics commenced at Kangaroo Valley Ambulance Station during April and May 2024.

NSW Ambulance has received funding for up to 2,500 staff and 30 new ambulance stations in an investment to frontline emergency care over the coming years under the Strategic Workforce and Infrastructure Team (SWIFT) program. This includes the recent announcement that regional NSW will receive an additional 500 paramedics.

In April 2024, NSW Ambulance announced an intention to consult with stakeholders about draft locations being considered for the next phase of additional paramedics for rural and regional NSW.

The Department of Planning, Housing and Infrastructure provides NSW Ambulance with the most up to date population projections. NSW Ambulance uses this and other data streams when planning for future services.

* 3005 TAXIS IN KIAMA—Mr Gareth Ward to ask the Minister for Regional Transport and Roads—

With respect to taxi services based out of Kiama and servicing the region:

- (1) Do you have plans to immediately introduce a six-month subsidised taxi service in Kiama following the earlier closure of such services?
 - (a) If not, why not?

- (2) Noting the Illawarra-Shoalhaven Strategic Regional Integrated Transport Plans (SRITPs) was scheduled to commence mid 2024, has this commenced and where can the community find information and updates on this?
- (3) Is the August 2021 Illawarra-Shoalhaven SRITP to be updated as part of this project?
- (4) Will you consider providing a community transport (such as a small bus) service for the Kiama community so the public, including the elderly and disabled, does not have to rely on Blue Haven Community Transport?
 - (a) If not, why not?
- (5) Since coming to Government, what investments in public transport have you made in the Kiama Electorate?

Answer—

I am advised

- (1) A series of Roundtables are being held to seek feedback on ways to improve the availability of wheelchair accessible services, while ensuring these services are safe and affordable for passengers who need them and are economically viable for service providers and drivers. To date, three Roundtables have been held in Sydney, Wagga Wagga and Ballina. A fourth Roundtable is being planned to be held in Orange on 2 July 2024. The Roundtables bring together people with disability, local disability and community stakeholders, community transport, local representatives from the Point to Point Industry and government agencies. Submissions are also welcomed from those who cannot attend. The outcomes from these Roundtables, will be collated into a single report and provided to Government for consideration regarding next steps. Transport for NSW and the Point to Point Transport Commissioner are continuing to work with industry, people with disability and disability groups to look at ways to support the availability of safe wheelchair accessible services.
- (2 - 3) Work on the Illawarra-Shoalhaven Strategic Regional Integrated Transport Plan will commence in Quarter 2 of 2024. Early engagement with targeted stakeholders is expected to occur from July 2024 to inform the development of a draft plan ahead of public exhibition. A draft Illawarra-Shoalhaven Strategic Regional Integrated Transport Plan is expected to be available for public exhibition in 2025. Following public exhibition, Transport for NSW will refine the draft to reflect feedback from the community and key stakeholders.

Transport for NSW is committed to meaningful engagement with the people, passengers and the communities it serves. In addition to public exhibition, the community can visit [Strategic Regional Integrated Transport Plans | Have Your Say \(nsw.gov.au\)](https://www.nsw.gov.au/transport/strategic-regional-integrated-transport-plans) to provide feedback on current transport issues, offer ideas and suggestions on transport solutions, or simply stay informed on any updates. The community is able to use an interactive map to share thoughts about specific issues in the region or upload a written submission for Transport for NSW's planners to consider.

The Illawarra-Shoalhaven Strategic Regional Integrated Transport Plan will align with the Department of Planning, Housing and Infrastructure's Illawarra-Shoalhaven Regional Plan 2041 to efficiently respond to anticipated changes in land use, demographics and travel demand across the Illawarra-Shoalhaven.

- (4) The NSW Bus Industry Taskforce second report Recommendation 6 is for Transport for NSW to develop a State-wide Medium Term Bus Plan, outlining the medium term priorities and pipeline for investment for bus services. Transport for NSW is analysing the way people move around the region and use the current network, while identifying changes in land use and growth, as well as working with a range of stakeholders to best identify travel need and purpose. Work is underway and all community feedback will be taken into account.
- (5) Future rail timetables are being developed that integrate the Mariyung fleet into the Intercity rail network. Investment for increased operating costs has been provided to enable improved service levels across all electric Intercity corridors. The NSW Government has allocated \$10 million to

LEGISLATIVE ASSEMBLY QUESTIONS AND ANSWERS

develop an Illawarra Rail Resilience Plan for the South Coast Line following the closure of passenger and freight services at multiple locations during extreme weather events in 2022 and 2023. The Illawarra Rail Resilience Plan will examine all infrastructure along the South Coast Line and determine options to improve, upgrade, and rebuild sections of the line to enhance the resilience of freight and passenger connections along the entire South Coast Line, including freight links to Port Kembla and the Southern Highlands.

* 3006 RESTORED SERVICES ON THE KIAMA TO BOMADERRY LINE—Mr Gareth Ward to ask the Minister for Transport—

With respect to repairs on the Kiama to Bomaderry line following extreme weather last month:

- (1) Can the Minister provide a breakdown of the \$600,000 spent on the south coast line?
- (2) In relation to (1):
 - (a) How much, if any, was spend on contractors?
 - (b) How much, if any, was spent on traffic control?
- (3) What will the \$1.5 million recently announced funding be spent on improvement to the track?
- (4) Did the Government consider betterment as part of these investments?
- (5) Will these investments reduce the amount of future track work on the south coast line?
- (6) Has the amount of track work been reduced on the south coast line since you became the responsible Minister?

Answer—

I am advised

- (1) In April 2024, the costs incurred to enable recovery of the South Coast Line between Waterfall and Bomaderry include the following:
 - Plant and equipment: \$438,696
 - Repairs and maintenance: \$162,386
 - External Labour: \$2,393
 - Total cost: \$603,475
- (2)
 - (a) \$2,393 was spent on external resources, excluding hire of external plant.
 - (b) In April, approximately \$2400 was spent on traffic control in key areas between Berry and Bomaderry. This was further supported by internal staff.
- (3) In restoring the Bombaderry end of the South Coast Line, the works undertaken were sufficient to reopen the line for rail traffic safely and quickly for customers. However, to ensure that the asset performs as expected for the longer term, approximately \$1.5 million will be spent in rebuilding the severely damaged sections from the ground up. This will involve rebuilding the entire ballast formation that was washed away during the April rain event.
- (4) Yes, in reconstructing the damaged areas to allow for rail traffic to be restored, Sydney Trains completed permanent reconstruction and stabilisation works, particularly in the northern areas of the South Coast Line including engineered solutions at Bald Hill and Wombarra.
- (5) Due to the nature of the work that was carried to restore the track and provide services to customers, some work was temporary in nature. This is particularly the case between Berry and Bomaderry, where Sydney Trains' internal design teams have been engaged to improve the track resilience prior to a full a reconstruction being undertaken. Sydney Trains will plan this work to minimise impacts to customers.

(6) There are two main categories of track maintenance undertaken, these include the following:

- Routine maintenance (inspection minor adjustments and corrective maintenance)
- Major periodic maintenance (refurbishment and renewals).

The routine maintenance has been relatively consistent as it is based on the approved maintenance plan. The annual major periodic maintenance spend is driven by asset condition and can fluctuate from year to year.

* 3007 POLICE STAFFING ARRANGEMENTS—Mr Gareth Ward to ask the Minister for Police and Counter-terrorism, and Minister for the Hunter—

With respect to staffing levels:

- (1) Are Police Offices working from Culburra, Kangaroo Valley and Berry currently working from Nowra to cover staffing shortfalls?
- (2) Do stations at Culburra, Kangaroo Valley and Berry have permanently stationed staff?
- (3) Has there been a reduction in station staff allocations to Culburra, Kangaroo Valley and Berry?
- (4) When Culburra staff are in place, do they work / attend to jobs in Nowra?
- (5) Is there a staffing shortfall for Nowra?
- (6) Is there a staffing shortfall for the Shoalhaven region?
- (7) How can NSW Police Management and the Government address these issues as part of recruitment of new officers?

Answer—

I am advised:

- (1 - 2) The NSW Police Force publishes officer numbers for each Police Area Command and Police District in its annual report. Staffing at any particular police station can fluctuate daily in response to crime trends and other intelligence-led operational requirements. All local resources are supplemented by specialist police (highway patrol, major crime squads, covert resources) who are managed centrally but can be deployed across boundaries to meet changing community needs and respond to crime patterns and emerging issues.
- (3) Due to operational reasons, staff may be required to provide assistance to other sectors.
- (4) There is no 'shortfall' in Authorised Police Positions at Nowra Police Station.
- (5) There is no 'shortfall' in Authorised Police Positions in the Shoalhaven region.
- (6) The NSW Police Force has developed specific strategies to address staffing levels in regional areas, including the recent announcement of the 'You should be a cop in your hometown' campaign; flexible recruitment criteria to better suit the needs of regional communities; and offering alternative pathways into the NSW Police Force, such as the Forensic Evidence and Technical Services Command Accelerated Recruit Program and Police Prosecution Command Accelerated Program.

Financial incentives and benefits are available for officers who choose to work in regional areas including housing assistance, relocation allowances or bonuses. Professional development and specialised training opportunities are also available for regional officers.

Collaboration with local stakeholders, including local government, businesses and community organisations, involves identifying specific recruitment barriers and leading to the development of targeted solutions. Partnership with local stakeholders continues to address the broader socio-economic issues that impact recruitment and retention in regional areas.
