Answer—

(1) For the period 30 November 2016 to 15 September 2017, NSW Fair Trading received approximately 24,000 enquiries by telephone, online and post about strata related matters.

(2) An estimate of the number of collective sales to be sought in the first year of the collective sale scheme would be extremely speculative. There are a number of reasons why the owners of lots in a strata scheme would agree to such a sale, including the state of repair of their building and the interest of potential buyers. Additionally, the scheme sets out a number of safeguards to ensure that those owners are protected. The time that will be required to comply with these safeguards will vary from scheme to scheme.

(3) This information is held by individual owners' corporations. There is no requirement to report it publicly.

It should be noted the number of requests for advice have no direct correlation to the number of strata schemes seeking or considering a collective sale.

(4) to (6) This information is not required to be provided to the Government.

The scheme enables employers to apply for a grant of up to \$2,000 for each additional employee and is to be paid on the first anniversary of the hire of a new employee.

In the 2015-16 Budget, it was estimated to cost \$9 million per annum from 2016-17 to 2018-19. A number of factors influence the number of businesses applying for the grant and these are impacted by labour market and general economic conditions.

Answer—

I am advised:

The incorporation of WestConnex into the Sydney road network naturally requires adjustments to some existing roads, both to enable motorists to effectively connect to WestConnex and to make the most of the opportunity that the additional motorway capacity provides. The works include enhancing capacity in the areas around where there are surface connections to WestConnex, such as in the area around the St Peters Interchange.
