Regarding the New South Wales Government funding of the Wagonga, Merriman's and Bodalla Local Aboriginal Land Councils (LALC) since 1983:

- (1) How much funding does the Government provide to each of the above LALCs each year over the last 10 year period?
- (2) How much land is under the control of each of these three LALCs?

- (7) Has the Government done anything to enquire into the deaths of Aboriginal people in these three LALCs over the past 20 years?
- (8) How many of these Aboriginal people were denied access to resources, particularly a permanent home and health care?
- (9) What processes are in place to ensure that all Aboriginal people within the boundary of these LALCs share in the funds distributed by the NSW Government to provide housing and health care to all resident Aboriginal families?

Answer—

- (1) The Government does not fund Local Aboriginal Land Councils on an annual basis. Annual funding allocations are made by the NSW Aboriginal Land Council.

However, in the last 10 year period the Government has directly provided the following approximate funding:

- (5) Local Aboriginal Land Councils may initiate housing acquisition schemes to enable Aboriginal families to purchase homes. However, any scheme must be in accordance with the provisions of the Aboriginal Land Rights Act 1983, specifically in relation to land dealings (Part 2, Division 4), Community, Land and Business Plans (Part 5, Division 6) and Community Benefit Schemes (Part 5, Division 1A, Section 52A), and with the approval of their members and the NSW Aboriginal Land Council.

*4294 SYDNEY BUSES—Mr Ron Hoenig asked the Minister for Transport—

Regarding TripView, TripGo and ArrivoSydney, the three applications developed for customers travelling on Sydney buses:

- (1) Do the applications accurately track the arrival time of Sydney buses in bus regions 6-9 in the Eastern Region of Sydney?
(2) Do the applications accurately track the location of Sydney buses in bus regions 6-9 in the Eastern Region of Sydney?
(3) Are there any inherent faults in the applications that cause them to fail to provide commuters with full and accurate information as to the timetabling and location of their bus service?
(4) Since introducing the applications in December 2012, has the Department conducted a detailed review as to the reliability and effectiveness of these applications?

Answer—

LEGISLATIVE ASSEMBLY QUESTIONS AND ANSWERS
Wednesday 18 September 2013

We have delivered real time bus tracking and real time train apps for customers through smart phone applications. Seven real time apps are now available, including TripView, TripGo, Arrivo Sydney, Hidden City, Triptastic, Transit Times+ and Jaunt! Sydney. Customers can use their smart phones to locate where buses and trains are on their route and when they will arrive. They can also get directions to the closest bus stop and train station, as well as locate where to buy tickets. More information about these apps is available on the Transport Info website at www.131500.com.au.

*4295 REDFERN STATION—Mr Ron Hoenig asked the Minister for Transport—

- (1) Has Redfern Train Station recently stopped the sale of concession tickets from vending machines outside of peak hours?
- (2) If so, why?

Answer—

I am advised:

To promote a fairer system by targeting fare evasion, changes were recently introduced to the way concession tickets can be purchased at selected stations, including at Redfern Station.

At these selected locations, concession tickets are only available from ticket vending machines before 9.00am Monday to Friday, on weekends and public holidays and when the ticket office is closed. More information can be viewed on the Sydney Trains website at www.sydneytrains.info.

*4300 FAULTY SPEED CAMERAS—Mr Ryan Park asked the Minister for Transport representing the Minister for Roads and Ports—

- (1) Since 1 April 2011, how many speed cameras, red light cameras, point to point cameras, and mobile speed cameras have been found to be faulty?
- (2) Since 1 April 2011, how many requests have been made by Roads and Maritime Services to the Office of State Revenue to not proceed with penalties issued in relation to a faulty camera?
- (3) Since 1 April 2011, how many infringement notices have been refunded as a result of camera error?
- (4) Do motorists have to initiate the process of recovering this money?

Answer—

I am advised:

- (1) Fixed digital speed cameras in New South Wales are subject to calibration and accuracy certification procedures for the approved traffic enforcement device, under Clause 35 of the Road Transport Regulation 2013 and under Section 137 of the Road Transport Act 2013. Under this Act there is also a requirement to perform a Section 138 certification of camera-recording devices at 30 day intervals. This Act also applies to red light cameras.

Speed cameras are the subject of comprehensive and regular maintenance, testing and certification before approval for use. They are monitored online 24 hours a day seven days a week and any issues that arise are dealt with as soon as possible to ensure motorists are not incorrectly fined. This strict testing regime ensures cameras are working accurately in detecting vehicles exceeding the speed limit and/or running a red light.

Motorists can check the testing certificates relevant to their offence by logging into the State Debt Recovery Office website on www.sdro.nsw.gov.au and clicking a "view camera images" icon located on the right of the screen, which then takes them through the process to view the image, then request the dates of certification. Offence images are only viewable to the registered owner or nominated driver of a vehicle detected exceeding the speed limit and in receipt of a penalty notice.

The camera detects the passing of all vehicles and there are several factors which may cause the flash to be triggered. It is only when the calculations within the camera computer confirm that an offence has been committed, either exceeding the speed limit or running a red light, that the image of the vehicle will be captured for processing.

If there is ever any concern about the operation of a speed camera it is taken offline while a comprehensive investigation is carried out. Any penalties issued to motorists by a camera later found to have a fault are withdrawn.

- (2) Roads and Maritime Services advise that no requests were made by RMS to the Office of State Revenue to cease adjudication of an incident created by a faulty camera.
- (3) None.
- (4) No.

*4301 TRUCK EXHAUST SMOKE IN M5 EAST TUNNEL—Mr Ryan Park asked the Minister for Transport representing the Minister for Roads and Ports—

- (1) Since 1 March 2013, how many truck operators have been fined for excessive exhaust smoke in the M5 East tunnel?
- (2) Did all of these truck operators receive a fine of \$2,000?
 - (a) If not, how many did receive a fine of \$2,000?
 - (b) Did any of the truck operators have their licence suspended?
- (3) How many truck operators have had their vehicles retrofitted?
 - (a) How many vehicles does this equate to?

Answer—

I am advised:

(1-2) The first and second penalty notices are for \$2,000. On the third infringement, the vehicle is issued a \$2,000 penalty notice and a three month suspension of the registration.

As at 5 August 2013, 96 penalties of \$2,000 had been issued and five vehicles had been issued with a second penalty notice of \$2,000.

As at 19 August 2013, 107 penalties of \$2,000 have been issued and six vehicles have been issued with a second penalty notice of \$2,000.

(3) As at 5 August 2013, four vehicles had signed up to the diesel retrofit program.

As at 19 August 2013, of the seven vehicles now signed up, \$18,000 has been paid for three vehicles.

*4302 APPIN ROAD—Mr Ryan Park asked the Minister for Transport representing the Minister for Roads and Ports—

- (2) What, if any, further improvements are planned?
 - (a) When will this work start?
 - (b) What is the budget allocated for these improvements?

Answer—

I am advised:

- (1) Since 1 April 2011, Roads and Maritime Services has carried out the following work on Appin Road:
 - Rehabilitation of the pavement from Loddon River to Dharwal State Conservation Area turn off, completed on 15 May 2011.
 - Rebuilding of the road west of Westcliffe Colliery, completed on 7 May 2012, and resurfacing the road between Bulli Tops and Loddon River, completed on 21 March 2012.

 - Resurfacing of 750 metres of pavement, 1.2 kilometres west of Wedderburn Road.

These two projects have a total cost of \$640,000 and are scheduled for completion by June 2014.

*4305 WESTPAC RESCUE HELICOPTER—Mr Ryan Park asked the Attorney General, and Minister for Justice representing the Minister for Police and Emergency Services, Minister for the Hunter, and Vice-President of the Executive Council—

- (1) What evidence did the Government use to support the downscaling of the Westpac Rescue Helicopter Service?
(2) What alternative arrangements are going to be in place should people require this service when it is not operating?
(3) Why was \$1.5 million funding for this service announced in June 2012 if the service was to be downgraded 12 months later?

Answer—

The Government is committed to the ongoing operations of the Westpac Life Saver Rescue Helicopter (Southern Region). This is reflected in the Government's commitment to the provision of \$1.1 million in funding per year to the service over the next four years, which is \$4.4 million to 30 June 2017. In 2012-13 the Government provided \$1.5 million in funding.

Under the previous Government only \$800,000 in funding was provided shortly before March 2011 as a one off payment without an ongoing commitment to funding.

*4306 FREE SHUTTLE BUS SERVICES—Mr Ryan Park asked the Minister for Transport—

(4) What are the estimated costs of increasing the number of "Gong Shuttle" buses?
(5) Does the Government currently have plans to increase "Gong Shuttle" services?
(a) If not, why not?

Answer—

As you are aware, the Government recently reviewed the role of free shuttle buses in the transport network. The Wollongong free shuttle bus was retained, but others which attracted low patronage or duplicated other routes have been discontinued.

It is regrettable that proper network planning did not underpin the introduction of the shuttles when they

were rushed into service in the lead-up to the last election.

- (1) When will the Government release its Freight and Ports Strategy?

Answer—

I am advised:

- (1) The final New South Wales Freight and Ports Strategy will be released later in 2013 subject to Cabinet approval.

Answer—

I am advised:
