Transcript Correction

Dear Dr McGirr

I am writing about evidence I provided to the Select Committee on Remote, Rural and Regional Health at its 13 December 2024 hearing relating to the implementation of Portfolio Committee No. 2 recommendations relating to cross-jurisdictional health reform and government consultation with remote, rural and regional communities.

Having now had the opportunity to review the transcript I am writing to clarify my evidence as detailed below.

On page 12 of the hearing transcript, in relation to the shared understanding project, I state that:

Our team is leading a large-scale shared understanding project that's currently looking at three metro and three regional local health districts to understand exactly how we can bring the subject matter expertise, which is relied upon in NSW Health for healthcare delivery, and be able to meet that with community needs and expectation and have a really good, equally balanced conversation for consultation, for communication and engagement.

This sentence should refer to two metropolitan local health districts and four regional local health districts.

I do not believe that this change substantially alters the meaning or intent of my evidence.

Thank you for the opportunity to provide the Committee with this clarification. If you require more information, please contact me at [REDACTED] or on [REDACTED]

[REDACTED]

Luke Stane
Deputy Secretary, Rural and Regional Health
