REVIEW OF THE NSW RECONSTRUCTION AUTHORITY ACT 2022

Name: Name suppressed
Date Received: 16 June 2024

Partially
Confidential

As it stands, the current Act is sound and allows for a range of crucial activities.

It is the implementation which could be improved. Handling of the Act's powers has been clumsy, piecemeal and above all poorly communicated.

Be decisive as possible

Create clear, accessible plans

Fund activities to the fullest extent

Communicate plans and implementation of the Act clearly and bring communities with you in undertaking your activities

And use the Act to forward plan and build capacity now to handle future natural disasters Lives - hundreds of thousands of lives - depend on this

So please

Improve implementation of the current Act
