REVIEW OF THE GREATER SYDNEY PARKLANDS TRUST ACT 2022

Name: Mr Stephen Durbidge

Date Received: 27 January 2025

The best thing to do would be to stop cleaving off bits of the parks under trust to commercial interests, e.g. RSL or Leagues club, proposed Hotels, multistorey club car parks, etc. The trust should be reducing commercial encroachment on Trust Park lands not encouraging it. Its just a bit here, then a bit there and another bit over there then its no longer a large park anymore for recreation, so it can now be sold to the highest bidder. We need more Green space with higher density, not less, these precious bits of green space need to be preserved not flogged off to off set poor Government mismanagement.

Another thing to do for Parramatta Park to create a bit more Green space, would be to create a land bridge over the western rail line & Park Parade to connect the currently separated sections of the park for safer pedestrian & wildlife access
