Dear Mr Donnelly

I refer to the transcript for the hearings into the portfolios of Mental Health, Women and Ageing on 5 September 2017.

I wish clarify a statement that I made during the hearing in response to questions from the Hon. Penny Sharpe MLC about staffing at the NSW Parks and Wildlife Service, specifically regarding representations I made to the Minister for the Environment. Those comments can be found on page 11 of the transcript.

I was advised during the hearing that I had made representations to the Minister, however I have since been advised this related to another matter relating to NSW Parks and Wildlife Service, not matters raised by the Hon. Penny Sharpe.

Yours sincerely

Tanya Davies MP
Minister for Mental Health, Women, and Ageing
