Response:

The NSW Government received over 16,000 pieces of feedback from right across the community via the online mapping tool, email, phone calls and community sessions. The 2018 consultation was genuine and widespread and the Government made changes based on feedback received. The Government will continue to refine the proposed corridor based on feedback.

RESOLVED TO PUBLISHED BY RESOLUTION OF THE COMMITTEE ON 13 AUGUST 2018
Response: The proposed Grose River Bridge will need to be the subject of detailed studies to determine design levels.

RESOLVED TO PUBLISHED BY RESOLUTION OF THE COMMITTEE ON 13 AUGUST 2018
Response:
A probabilistic estimate is included at Appendix 2 of the RMS PMO (Project Management Office) Concurrence Report dated April 2018. A copy was provided to the committee as part of the responses to Questions on Notice from the Roads and Maritime Services Chief Executive Officer's appearance before the Committee on 18 June 2018.
