Subject: Pounds in New South Wales - Orange City Pound - site visit

Good morning

I hope the committee found the visit to Orange City Pound useful and informative.

My Pound Supervisor had an additional thought we forgot to raise at the visit that I wanted to put forward.

Council occasionally gets people repeatedly dumping puppy litters in our drop cages and we don't have the legal authority to check their license plates to identify them.

Any additional ways we can legally identify these people would help us get in touch with them for education and support to try and stop the practice.

Appreciate your time. All the best with the remainder of the inquiry.

Kind regards

Greg Perry
Senior Environmental Health Officer
