Dear Jessie,

Thank you for sending through the transcript.

I note that in my evidence on page 33 there is a comment (inaudible).

that they're treated fairly as well and it's a level playing field for them that there is a recognised [inaudible] formula for working them out.

I cannot recall the exact word I may have used so I unfortunately cannot clarify that any further with any degree of certainty.

Other than that, I have no corrections to offer.

Thank you.
