Good morning,

As advised in the material, I have separated each response by word document.

Further, I have a minor transcript correction – it is not that the transcript is incorrect, but rather, a clarification to a word I said. In the very first paragraph of **page 36** – I state, “a lot of the capabilities of **bus drivers** to actually fulfil the needs of their contracts were based on a projection rather than previous performance.”

I meant to say **bus operators**, rather than bus drivers. I would like to clarify that.

Please let me know if anything else is required and thank you again for the opportunity to speak at the hearing.

Regards,
