The Hon Mark Banasiak MLC
Chair- Impact of the phase-out of Australian live sheep export by sea on New South Wales
Legislative Assembly Portfolio Committee No. 4 – Regional NSW
Parliament of New South Wales

Via email: portfoliocommittee4@parliament.nsw.gov.au

Dear Chair and Committee Members,

I would like to reiterate our thanks for the opportunity to provide evidence in the hearing this morning.

I wanted to provide a point of clarification for some evidence that I presented to the committee.

When asked if WoolProducers Australia had been approached by the NSW government or Ministers in relation to the phase out of the live export of sheep by sea, I truthfully stated that we had not. However, I understand that my answer may not have clearly confirmed that there has not been a state consultation process undertaken by the NSW Government, its Minister or Departments on this matter.

Given the line of questioning, I felt it pertinent that the committee was aware of this information, and the absence of any consultation.

Yours sincerely,

Adam Dawes
General Manager
WoolProducers Australia
