Subject: RE: Inquiry into the management of cat populations in New South Wales - Extension for post-hearing response - Australian Pet Welfare Foundation

Hello,

I have also attached a PP of some material related to the yellow highlighted section in the transcript relating to tracking data. In the *Tracking cats after desexing* document, in the first slide and the right hand image, by clicking on the play button on the bottom left of the image, it shows the cats' movements after desexing at a dairy farm.

Let me know if you have any questions

Kind regards,

Jacquie
