

Spinal Cord Injuries Australia

Mr Greg Killeen

26 March 2014

During the hearings I took a question on notice (I requested it to be taken notice) that was asked in relation to how LTCS participants make complaints or seek advocacy to address issues from the disability sector or advocacy organisations, and if Spinal Cord Injuries Australia received many complaints. After speaking with my colleague who manages the individual advocacy complaints, he stated that he has not received any complaints about the LTCS by LTCS participants with a spinal cord injury for quite some time.
