Ms Teresa Mc Michael  
A/Director G.P.S.C. i  
Legislative Council  
Parliament House  
Macquarie St. Sydney 2000.

I wish to add my voice to the thousands of Citizens of this state who totally oppose Any sell off of our Electricity supply or distribution system under Any circumstances.

Our Electricity Grid is a vital part of our Public Infrastructure and should never be sold or traded, particularly for some short term gain for any Political outcomes.

It is time for our Governments, at all levels, to start exercising some long term vision and courage to make difficult decisions for the long term benefit to the people of this state whom they are supposed to represent.

Yours Truly

Patrick O'Rourke
