**INQUIRY INTO CEMETERIES AND CREMATORIA  
AMENDMENT REGULATION 2018**

**Name:** Tania Doyle  
**Date Received:** 28 August 2018

---

My family have purchased many plots and we regularly visit our family and children who have passed. This law should not include people who have already been buried. I can totally understand with future burials being considered for cremation purposes as we have a higher population now. But seriously do not disturb plots which have already happened. This is very disrespectful to my veteran grandfathers, uncles and my father who passed early due to war. Please do not pass this law!
