**INQUIRY INTO CEMETERIES AND CREMATORIA
AMENDMENT REGULATION 2018**

Name: Mrs Daphne Scott

Date Received: 29 August 2018

I am sending this to strongly disagree with you as a government making this ruling to be able to dig up our loved ones after 25 years. How can a government make this ruling. I write as a Mother who has lost a Daughter, as a Daughter who has lost Parents and Grandparents and an Aunt that has lost a niece and nephews. We have paid for and laid our loved one to rest where we thought would be their final resting place for their remains and now you are holding us to ransom and saying pay more or we dig them up. This is a disrespectful, despicable callous act. It should not be allowed. I am hoping you find compassion and respect and overturn this ruling as Our loved ones as many before them have earned the right to be left where they are in peace. Sincerely Daphne Scott
