**INQUIRY INTO CEMETERIES AND CREMATORIA
AMENDMENT REGULATION 2018**

Name: Ms Sally Webster
Date Received: 3 September 2018

I would like to know what gives politicians the right to make these decisions with no community consultation?

Politicians are voted in to work for the people. They do not own the land, infrastructure or the money....the people of New South Wales do.

I would like it known that I am appalled at the implications that this regulation will have on the population of New South Wales.

The State Government is disgusting, forced Council amalgamations, selling off of assets, privatisation...the list goes on and on. But this! Showing an absolute disrespect for the people and their loved ones.

Anybody that believes we live in a democracy is sadly delusional. Australia was once a great country but our way of life is slowly being eroded for the benefit of the minority elite of which all politicians are members.

I for one, will never vote for a major party again. No one in either the Coalition or the Labor party listen.

Sincerely

Sally Webster
Disillusioned voter
