**INQUIRY INTO CEMETERIES AND CREMATORIA
AMENDMENT REGULATION 2018**

Name: Name suppressed

Date Received: 1 September 2018

Partially
Confidential

I wholeheartedly disagree with the idea of digging up graves. They are sacred places for the families of the deceased and touching them would not only be heart rendering for those who have already suffered the loss of their loved ones, but will also be highly unethical - whether it's after 25 years or 50 years. Please reconsider the passing of this regulation.
