

**INQUIRY INTO USE OF E-SCOOTERS, E-BIKES AND
RELATED MOBILITY OPTIONS**

Name: Name suppressed

Date Received: 5 July 2024

Partially
Confidential

Submission that EBikes and other electric mobility transportation, and push bikes to be registered and to have 3rd party and public liability insurance. They are using our roads, and have had personalised "roadways and paths" made for them, yet they pay nothing! They can be dangerous to themselves, pedestrians and other road users. It's time that they paid their way, and are held accountable too. The same way that other road "users" are.
