

**Submission
No 31**

**INQUIRY INTO USE OF E-SCOOTERS, E-BIKES AND
RELATED MOBILITY OPTIONS**

Name: Mr Cassedy Huynh

Date Received: 7 July 2024

Other states and territories have laws in place for these modern devices, while NSW stands still and refuses to move with the times. It's ridiculous to be fined for 'driving an unregistered vehicle' when there is no possible way to register said "vehicle". These personal mobility devices are the future. Please let commonsense prevail.
