**INQUIRY INTO IMPACT OF THE REGULATORY
FRAMEWORK FOR CANNABIS IN NEW SOUTH WALES**

Name: Mr Mark Smith

Date Received: 31 July 2024

My state hemp Therapeutic Research Licence was taken by the government i lost millions when the Government made Cannabis for Medicine legal. I have been persecuted by the police and courts for declaring Cannabis prescription on my licence. Lost the ability to travel to work and to be self-determined as a citizen of Australia. The trauma that has been caused by prohibition and lying politician's has been immense.

I have worked all my life and paid taxes, i have been an upstanding citizen for 49years of my life and do not deserve the discrimination I receive for my choice of plant medicine that is safer than sugar. The Ld50 should make this plant free like grapes.
