INQUIRY INTO PUBLIC TOILETS

Name: Dr Paul Recher

Date Received: 4 November 2024

One stand alone consideration for a successful public toilet cleanliness is critical. The only way to ensure the standard required is for there to be a paid attendant to meticulously clean and wash down the facility FREQUENTLY. In nations like Malaysia with vustomers paying a small fee (20 cents) e.g. Malaysia this system is eminently successful. Here a partial public purse subsidy and a \$1 perhaps \$2 use fee.
