**INQUIRY INTO MANAGEMENT OF CAT POPULATIONS
IN NEW SOUTH WALES**

Name: Amanda McLean
Date Received: 18 November 2024

I am a responsible Dog owner and by law my Dogs are not permitted to roam. So why is it that Cats in NSW, proven killers of native animals in huge numbers are not subject to the same legislation Dogs are ? Even if my dogs did roam, they would not kill anywhere even close to the amount of wildlife just one roaming domestic Cat would kill. It's crazy when so much of our native wildlife is under threat from habitat destruction and climate change that these proven killers are allowed to roam free ! Disgusting really.

As a resident of Murrumbateman, I am very concerned about the impact roaming pet cats are having on our native wildlife. I therefore support sensible amendments to the law to enable local governments to enforce anti-roaming laws for pet cats, bringing NSW into line with almost every other state.

Cats are one of the world's most successful predators. In NSW, approximately 96 million native mammals, birds and reptiles are killed by roaming pet cats every year – with about 110 native animals killed by each roaming , hunting pet cat. Unfortunately about 70% of cat owners still allow their pets to roam.

We can't change the nature of cats, but we can change the culture that allows pet cats to roam and kill. We urgently need responsible pet ownership, and this starts with clear rules to ensure pet owners keep cats contained to their property to save our native wildlife.

This will also benefit pet cats. Cats that are kept at home are happy and can live up to 10 years longer than cats that roam which are often injured or killed through fighting, car accidents and disease.

This reform should be accompanied by funding for education, compliance and to make desexing and registration easier. We also need clear rules around desexing by 4 months of age to prevent unwanted breeding and requirements for all local governments to develop and implement companion animal management plans.

I am therefore calling on the NSW Government and the Animal Welfare committee to support:

Amendments to the NSW Companion Animals Act 1998 to enable local governments to enforce anti-roaming laws for pet cats at a local level, bringing NSW into line with almost every other state.

State government funding of a minimum of \$9 million to fund compliance, education, desexing, identification and registration programs.

Requirements for all local governments to develop companion animal management plans to protect wildlife, as is required in Victoria.

Development of a state-wide web resource for responsible pet ownership.

Making desexing mandatory state-wide by 4 months of age, as is required in WA, Tasmania, ACT and SA.

Kind Regards,

Amanda McLean
