**INQUIRY INTO 2024 ANNUAL REPORT OF THE NET
ZERO COMMISSION**

Name: Ms Gab McIntosh

Date Received: 12 February 2025

Dear Committe

NSW is not on target to reduce the emissions from coal fired power stations. In fact we may be increasing those emission by a great amount. We need no new coal fired power station and a big PRcampaign to help the general population understand that the whole planet is in danger unless we reduce emissions. Nuclear is not an answer. Renewables are the answer but we need much speedier uptake of renewables

Yours sincerely

Gabrielle McIntosh OAM
