Dear parliament,

We have four sons and one daughter. We have faced the problem of porn access which has had a significant detrimental effect on one of our sons. It has engendered poor inter-personal skills, decreased self worth from dishonesty and negatively impacted on our relationship with him.

We are so saddened by the ease of access for pornography these days, and feel

Disempowered to remove this from the lives of our children and their future husbands/wives.

Please consider all you can to mitigate this awful slander on society and young people
