I have been a counsellor in many different areas for 25 years. I have seen the horrendous effects of pornography on adults and teenagers over those years. From corrupting their minds (negating healthy understanding of sexuality to forming deep addictions and warping their sense of what a real life partner. Relationship and love look like. It is just appalling. Also, in many cases promotion violence of women and the use of human beings as sexual objects rather than mutual love and commitment. If we want to see more healthy, realistic concepts of relationship which lasts, it is only one of the welcomed results , of illuminating Porn in our society. We spend all of this time and money rectifying our environmental abuse, so Please listen and rectify this horrendous problem in our society, especially for the development of young people's vulnerable minds. Once seen it cannot be unseen. Thank you
