**INQUIRY INTO IMPACTS OF HARMFUL PORNOGRAPHY
ON MENTAL, EMOTIONAL, AND PHYSICAL HEALTH**

Name: Name suppressed

I wish to express my concerns over the harmful effects of online pornography and violence.

Australians expect the government to only allow safe products to be sold in our country.

For example, if I buy a toaster I know it has been tested and is safe to use.

Yet we have the data to show how harmful the effects of pornography , violent and otherwise, is on people's mental, emotional and physical health, especially children.

The tech companies have the capacity and money to prevent these platforms, and need to be held accountable.

Secondly, I am all for freedom of speech but not freedom of image.

Sincerely,
