Notes and costing assumptions:

The policy proposes to develop an app to notify domestic and family violence victims when their perpetrator is being released from prison.

The policy specifies that the funding for the app will be met from within the existing Department of Communities and Justice budget.

The Parliamentary Budget Office has costed the policy as nil. This is because funding to develop an app to notify victims of domestic and family violence when their perpetrator is released from prison is already included in the Department's budget.

This existing budget covers the development of the app. However, does not include any ongoing resourcing required to support the ongoing maintenance or client support.
