PETITION
TO THE HONOURABLE THE PRESIDENT AND MEMBERS OF THE LEGISLATIVE COUNCIL OF NEW SOUTH WALES

The Petition of certain citizens of New South Wales, state that in light of the [1] introduction of the Reproductive Health Care Reform Bill 2019 which legalises abortion in NSW, [2] the Bill's facilitation of late term abortion, [3] the Bill's provisions to force medical practitioners who have a conscientious objection to nevertheless direct their patients to an abortionist, [4] the complete absence of any professional standards according to which medical practitioners are to exercise their duties under the proposed law, [5] the complete absence of any protections for women who may be coerced into taking an abortion, and [6] the failure of the proponents of the Bill to facilitate any meaningful due process of debate, community consultation or inquiry into the provisions of the Bill, your petitioners humbly request that this House oppose the Bill in its current form.
